Equifax Delivers First Quarter 2024 Revenue Growth of 7% to \$1.389 Billion Amid Challenging Mortgage Market

ATLANTA, April 17, 2024 -- Equifax[®] (NYSE: EFX) today announced financial results for the quarter ended March 31, 2024.

- First quarter 2024 revenue of \$1.389 billion grew strong 7%, with 9% non-mortgage local currency revenue growth.
- US mortgage revenue grew a strong 6% in the first quarter despite a 19% decline in USIS mortgage credit inquiries.
- Workforce Solutions first quarter revenue growth of 1%, with strong 7% non-mortgage revenue growth and Verification Services non-mortgage revenue growth of very strong 15% led by Government.
- · USIS first quarter revenue growth of 10%, the strongest in three years, with 38% mortgage revenue growth and 1% non-mortgage revenue growth.
- International first quarter revenue growth of 13% on a reported basis and up 20% on a local currency basis, with organic local currency revenue growth of 6%.
- Strong new product innovation leveraging the new EFX Cloud with 9% first quarter new product Vitality Index and 85% of new models and scores built using Artificial Intelligence and Machine Learning.
- Maintaining full-year 2024 guidance from strong first quarter results with midpoint expectation for revenue of \$5.720 billion, up 8.6%, with strong non-mortgage local currency revenue growth of over 10% and Adjusted EPS of \$7.35.

"Equifax performed well in the first quarter against our EFX2026 strategic priorities in a very challenging mortgage market delivering revenue of \$1.389 billion, up a strong 7%. Our U.S. mortgage business grew a strong 6% despite a 19% decline in USIS mortgage credit inquiries. Our non-mortgage business, which was about 80% of Equifax revenue in the first quarter, delivered very strong broad-based 9% local currency revenue growth, from continued strong new product performance with a New Product Vitality Index of 9% and 85% of new models and scores built using AI and ML. Workforce Solutions delivered very strong 15% non-mortgage Verification Services revenue growth led by the Government business, with 1% overall growth from the U.S. mortgage market decline. USIS delivered very strong revenue growth of 10%, its strongest in three years, from very strong 38% mortgage revenue growth, and International had another good quarter, finishing with organic local currency revenue growth of 6%," said Mark W. Begor, Equifax Chief Executive Officer.

"We are maintaining our full-year 2024 guidance from our strong first quarter results with a midpoint expectation for revenue of \$5.720 billion, up 8.6% on a reported basis and organic local currency growth of 8.5%, and Adjusted EPS of \$7.35. While Equifax continues to execute well against its EFX2026 strategic priorities, our 2024 guidance reflects an expectation of a decline of about 11% in our 2024 U.S. mortgage credit inquiries which is consistent with the current run-rates, and compares to down 34% in 2023. EBITDA margins are expected to expand to 33.3%, reflecting organic revenue growth and the additional cost savings from Cloud spending reductions plans.

We have strong momentum in 2024 and are confident in the future of the New Equifax as we deliver strong non-mortgage revenue growth, move towards completion of our Cloud transformation, leverage our new Cloud capabilities to accelerate new product roll-outs that 'Only Equifax' can provide, and invest in new products, data, analytics, and AI capabilities which are expected to drive

growth in 2024 and beyond. We are energized about the New Equifax and remain confident in our long-term 8-12% revenue growth framework that is expected to deliver higher margins and free cash flow."

Non-GAAP Financial Measures

This earnings release presents adjusted EPS attributable to Equifax which is diluted EPS attributable to Equifax adjusted (to the extent noted above for different periods) for acquisition-related amortization expense, accrual for legal and regulatory matters related to the 2017 cybersecurity incident, fair market value adjustment of equity investments, foreign currency impact of certain intercompany loans, acquisition-related costs other than acquisition amortization, income tax effect of stock awards recognized upon vesting or settlement, and Argentina highly inflationary foreign currency adjustment. All adjustments are net of tax, with a reconciling item with the aggregated tax impact of the adjustments. This earnings release also presents (i) adjusted EBITDA and adjusted EBITDA margin which is defined as consolidated net income attributable to Equifax plus net interest expense, income taxes, depreciation and amortization, and also excludes certain one-time items, (ii) local currency revenue change which is calculated by conforming 2024 results using 2023 exchange rates and (iii) organic local currency revenue growth which is defined as local currency revenue growth, adjusted to reflect an increase in prior year Equifax revenue from the revenue of acquired companies in the prior year period. These are important financial measures for Equifax but are not financial measures as defined by GAAP.

These non-GAAP financial measures should be reviewed in conjunction with the relevant GAAP financial measures and are not presented as an alternative measure of net income or EPS as determined in accordance with GAAP.

Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures and related notes are presented in the Q&A. This information can also be found under "Investor Relations/Financial Information/Non-GAAP Financial Measures" on our website at www.equifax.com.

Forward-Looking Statements

This release contains forward-looking statements and forward-looking information. These statements can be identified by expressions of belief, expectation or intention, as well as statements that are not historical fact. These statements are based on

certain factors and assumptions including with respect to foreign exchange rates, revenue growth, results of operations and financial performance, strategic initiatives, business plans, prospects and opportunities, the U.S. mortgage market, economic conditions and effective tax rates.

While the Company believes these factors and assumptions to be reasonable based on information currently available, they may prove to be incorrect. Several factors could cause actual results to differ materially from those expressed or implied in the forward-looking statements. These factors relate to (i) actions taken by us, including, but not limited to, restructuring actions, strategic initiatives (such as our cloud technology transformation), capital investments and asset acquisitions or dispositions, as well as (ii) developments beyond our control, including, but not limited to, changes in the U.S. mortgage market environment and changes more generally in U.S. and worldwide economic conditions (such as changes in interest rates and inflation levels) that materially impact consumer spending, home prices, investment values, consumer debt, unemployment rates and the demand for Equifax's products and services. Deteriorations in economic conditions or increases in interest rates could lead to a decline in demand for our products and services and negatively impact our business. It may also impact financial markets and corporate credit markets, which could adversely impact our access to financing or the terms of any financing.

Other risk factors relevant to our business include: (i) any compromise of Company, customer or consumer information due to security breaches and other disruptions to our information technology infrastructure; (ii) the failure to achieve and maintain key industry or technical certifications; (iii) the failure to realize the anticipated benefits of our cloud technology transformation strategy; (iv) operational disruptions and strain on our resources caused by our transition to cloud-based technologies; (v) our ability to meet customer requirements for high system availability and response time performance; (vi) effects on our business if we provide inaccurate or unreliable data to customers; (vii) our ability to maintain access to credit, employment, financial and other data from external sources; (viii) the impact of competition; (ix) our ability to maintain relationships with key customers; (x) our ability to successfully introduce new products, services and analytical capabilities; (xi) the impact on the demand for some of our products and services due to the availability of free or less expensive consumer information; (xii) our ability to comply with our obligations under settlement agreements arising out of the 2017 cybersecurity incident; (xiii) potential adverse developments in new and pending legal proceedings, government investigations and regulatory enforcement actions; (xiv) changes in, and the effects of, laws, regulations and government policies governing our business, including oversight by the Consumer Financial Protection Bureau in the U.S., the U.K. Financial Conduct Authority and Information Commissioner's Office in the U.K., and the Office of Australian Information Commission and the Australian Competition and Consumer Commission in Australia; (xv) the impact of privacy laws and regulations; (xvi) the economic, political and other risks associated with international sales and operations; (xvii) the impact on our reputation and business if we are unable to fulfill our environmental, social and governance commitments; (xviii) our ability to realize the anticipated strategic and financial benefits from our acquisitions, joint ventures and other alliances; (xix) any damage to our reputation due to our dependence on outsourcing certain portions of our operations; (xx) the termination or suspension of our government contracts; (xxi) the impact of infringement or misappropriation of intellectual property by us against third parties or by third parties against us; (xxii) an increase in our cost of borrowing and our ability to access the capital markets due to a credit rating downgrade; (xxiii) our ability to hire and retain key personnel; (xxiv) the impact of adverse changes in the financial markets and corresponding effects on our retirement and post-retirement pension plans; (xxv) the impact of health epidemics, pandemics and similar outbreaks on our business; and (xxvi) risks associated with our use of certain artificial intelligence and machine learning models.

A summary of additional risks and uncertainties can be found in our Annual Report on Form 10-K for the year ended December 31, 2023 including without limitation under the captions "Item 1. Business -- Governmental Regulation" and "-- Forward-Looking Statements" and "Item 1A. Risk Factors" and in our other filings with the U.S. Securities and Exchange Commission. Forward-looking statements are given only as at the date of this release and the Company disclaims any obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

- (1) Local currency revenue change is calculated by conforming 2024 results using 2023 exchange rates.
- (2) Organic local currency revenue growth is defined as local currency revenue growth, adjusted to reflect an increase in prior year Equifax revenue from the revenue of acquired companies in the prior year period. This adjustment is made for 12 months following the acquisition.

2. What is the estimate of the change in overall U.S. mortgage market credit inquiry volume that is included in the 2024 second quarter and full year guidance provided?

The change year over year in total U.S. mortgage market credit inquiries received by Equifax in the first quarter of 2024 was a decline of 19%. The guidance provided on page 3 assumes a change year over year in total U.S. mortgage market credit inquiries received by Equifax in the second quarter of 2024 to be a decline of about 13%. For full year 2024, our guidance assumes a decline of about 11%.

- (1) During the first quarter of 2024, we recorded acquisition-related amortization expense of certain acquired intangibles of \$67.0 million (\$53.2 million, net of tax). We calculate this financial measure by excluding the impact of acquisition-related amortization expense and including a benefit to reflect the significant cash income tax savings resulting from the income tax deductibility of amortization for certain acquired intangibles. The \$13.8 million of tax is comprised of \$17.9 million of tax expense net of \$4.1 million of a cash income tax benefit. During the first quarter of 2023, we recorded acquisition-related amortization expense of certain acquired intangibles of \$60.7 million (\$49.3 million, net of tax). The \$11.4 million of tax is comprised of \$15.5 million of tax expense net of \$4.1 million of a cash income tax benefit. See the Notes to this reconciliation for additional detail.
- (2) During the first quarter of 2024, we recorded an accrual for legal and regulatory matters related to the 2017 cybersecurity incident of \$0.1 million (\$0.1 million, net of tax). During the first quarter of 2023, we recorded an accrual for legal and regulatory matters related to the 2017 cybersecurity incident of \$0.4 million (\$0.3 million, net of tax). See the Notes to this reconciliation for additional detail.
- (3) During the first quarter of 2023, we recorded an unrealized gain on the fair market value adjustment of an equity investment of \$3.1 million (\$2.1 million, net of tax). The fair value adjustment was recorded to the Other income, net line item within the Consolidated Statements of Income. See the Notes to this reconciliation for additional details.
- (4) During the first quarter of 2024, we recorded a foreign currency gain on certain intercompany loans of \$0.4 million. During the first quarter of 2023, we recorded a foreign currency gain on certain intercompany loans of \$0.1 million. The impact was recorded to the Other income, net line item within the Consolidated Statements of Income. See the Notes to this reconciliation for additional detail.
- (5) During the first quarter of 2024, we recorded \$18.1 million (\$13.1 million, net of tax) for acquisition-related costs other than acquisition amortization. During the first quarter of 2023, we recorded \$24.7 million (\$18.6 million, net of tax) for acquisition-related costs other than acquisition amortization. These costs primarily related to integration costs resulting from recent acquisition activity and were recorded in operating income. See the Notes to this reconciliation for additional detail.
- (6) During the first quarter of 2024, we recorded a tax benefit of \$4.0 million related to the tax effects of deductions for stock compensation in excess of amounts recorded for compensation costs. During the first quarter of 2023, we recorded a tax

benefit of \$1.7 million related to the tax effects of deductions for stock compensation expense in excess of amounts recorded for compensation costs. See the Notes to this reconciliation for additional detail.

- (7) Argentina experienced multiple periods of increasing inflation rates, devaluation of the peso, and increasing borrowing rates. As such, Argentina was deemed a highly inflationary economy by accounting policymakers in 2018. During the first quarter of both 2024 and 2023, we recorded a foreign currency loss of \$0.1 million related to the impact of remeasuring the peso denominated monetary assets and liabilities as a result of Argentina being a highly inflationary economy. See the Notes to this reconciliation for additional detail.
- (8) During the first quarter of 2024, we recorded the tax impact of adjustments of \$18.8 million comprised of (i) acquisition-related amortization expense of certain acquired intangibles of \$13.8 million (\$17.9 million of tax expense net of \$4.1 million of cash income tax benefit) and (ii) a tax adjustment of \$5.0 million related to acquisition-related costs other than acquisition amortization.

During the first quarter of 2023, we recorded the tax impact of adjustments of \$16.6 million comprised of (i) acquisition-related amortization expense of certain acquired intangibles of \$11.4 million (\$15.5 million of tax expense net of \$4.1 million of cash income tax benefit), (ii) a tax adjustment of \$0.1 million related to an accrual for legal and regulatory matters related to the 2017 cybersecurity incident, (iii) a tax adjustment of \$1.0 million related to the fair value adjustment of equity investments and (iv) a tax adjustment of \$6.1 million related to acquisition-related costs other than acquisition amortization.

(1) During the first quarter of 2024, we recorded pre-tax expenses of \$0.1 million for an accrual for legal and regulatorymatters related to the 2017 cybersecurity incident, a \$0.4 million foreign currency gain on certain intercompany loans, \$18.1 million for acquisition-related costs other than acquisition amortization and a foreign currency loss of \$0.1 million related to the impact of remeasuring the peso denominated monetary assets and liabilities as a result of Argentina being a highly inflationary economy.

During the first quarter of 2023, we recorded pre-tax expenses of \$0.4 million for an accrual for legal and regulatory matters related to the 2017 cybersecurity incident, a \$3.1 million unrealized gain on the fair market value adjustment of equity investments, a \$0.1 million foreign currency gain on certain intercompany loans, \$24.7 million in acquisition-related costs other than acquisition amortization and a \$0.1 million foreign currency loss related to the impact of remeasuring the peso denominated monetary assets and liabilities as a result of Argentina being a highly inflationary economy.

^{*}Excludes interest income of \$0.8 million in International and \$0.4 million in General Corporate Expense.

Notes to Reconciliations of Non-GAAP Financial Measures to the Comparable GAAP Financial Measures

Diluted EPS attributable to Equifax is adjusted for the following items:

Acquisition-related amortization expense - During the first quarter of 2024 and 2023, we recorded acquisition-related amortization expense of certain acquired intangibles of \$67.0 million (\$53.2 million, net of tax) and \$60.7 million (\$49.3 million, net of tax), respectively. We calculate this financial measure by excluding the impact of acquisition-related amortization expense and including a benefit to reflect the material cash income tax savings resulting from the income tax deductibility of amortization for certain acquired intangibles. These financial measures are not prepared in conformity with GAAP. Management believes excluding the impact of amortization expense is useful because excluding acquisition-related amortization and other items that are not comparable allows investors to evaluate our performance for different periods on a more comparable basis. Certain acquired intangibles result in material cash income tax savings which are not reflected in earnings. Management believes that including a benefit to reflect the cash income tax savings is useful as it allows investors to better value Equifax. Management makes these adjustments to earnings when measuring profitability, evaluating performance trends, setting performance objectives and calculating our return on invested capital.

Accrual for legal and regulatory matters related to the 2017 cybersecurity incident - Accrual for legal and regulatory matters related to the 2017 cybersecurity incident includes legal fees to respond to subsequent litigation and government investigations for both periods presented. During the first quarter of 2024, we recorded an accrual for legal and regulatory matters related to the 2017 cybersecurity incident of \$0.1 million (\$0.1 million, net of tax). During the first quarter of 2023, we recorded an accrual for legal and regulatory matters related to the 2017 cybersecurity incident of \$0.4 million (\$0.3 million, net of tax). Management believes excluding these charges is useful as it allows investors to evaluate our performance for different periods on a more comparable basis. Management makes these adjustments to net income when measuring profitability, evaluating performance trends, setting performance objectives and calculating our return on invested capital. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Fair market value adjustment of equity investment - On August 7, 2023, we purchased the remaining interest of our equity investment in Brazil. Prior to the acquisition, the investment in Brazil was adjusted to fair value at the end of each reporting period, with unrealized gains or losses recorded within the Consolidated Statements of Income in Other income, net. During the first quarter of 2023, we recorded a \$3.1 million (\$2.1 million, net of tax) unrealized gain related to adjusting our investment in Brazil to fair market value. Management believes excluding this charge from certain financial results provides meaningful supplemental information regarding our financial results for the three months ended March 31, 2023, since the non-operating gain is not comparable among the periods. This is consistent with how our management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Foreign currency impact of certain intercompany loans - During the first quarter of 2024 and 2023, we recorded a gain of \$0.4 million and \$0.1 million, respectively, related to foreign currency impact of certain intercompany loans. Management believes excluding this charge is useful as it allows investors to evaluate our performance for different periods on a more comparable basis. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Acquisition-related costs other than acquisition amortization - During the first quarter of 2024 and 2023, we recorded \$18.1 million (\$13.1 million, net of tax) and \$24.7 million (\$18.6 million, net of tax), respectively, for acquisition-related costs other than acquisition amortization. These costs primarily related to integration costs resulting from recent acquisitions and were recorded in operating income. Management believes excluding this charge from certain financial results provides meaningful supplemental information regarding our financial results, since a charge of such an amount is not comparable among the periods. This is consistent with how our management reviews and assesses Equifax's historical performance and is useful when planning, forecasting, and analyzing future periods.

Income tax effects of stock awards that are recognized upon vesting or settlement- During the first quarter of 2024, we recorded a tax benefit of \$4.0 million related to the tax effects of deductions for stock compensation in excess of amounts recorded for compensation costs. During the first quarter of 2023, we recorded a tax benefit of \$1.7 million related to the tax effects of deductions for stock compensation in excess of amounts recorded for compensation costs. Management believes excluding this tax effect from financial results provides meaningful supplemental information regarding our financial results for the three months ended March 31, 2024 and 2023 because these amounts are non-operating and relate to income tax benefits or deficiencies for stock awards recognized when tax amounts differ from recognized stock compensation cost. This is consistent

with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Argentina highly inflationary foreign currency adjustment - Argentina experienced multiple periods of increasing inflation rates, devaluation of the peso, and increasing borrowing rates. As such, Argentina was deemed a highly inflationary economy by accounting policymakers. We recorded a foreign currency loss of \$0.1 million during the first quarter of 2024 and 2023 as a result of remeasuring the peso denominated monetary assets and liabilities due to Argentina being highly inflationary. Management believes excluding this charge is useful as it allows investors to evaluate our performance for different periods on a more comparable basis. This is consistent with how management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Adjusted EBITDA and EBITDA margin - Management defines adjusted EBITDA as consolidated net income attributable to Equifax plus net interest expense, income taxes, depreciation and amortization and also excludes certain one-time items. Management believes the use of adjusted EBITDA and adjusted EBITDA margin allows investors to evaluate our performance for different periods on a more comparable basis.
