Equifax Reports Second Quarter 2011 Results

ATLANTA, July 27, 2011 — Equifax Inc. (NYSE: EFX) today announced financial results for the quarter ended June 30, 2011. The company reported revenue from continuing operations of \$487.1 million in the second quarter of 2011, a 6 percent increase from the second quarter of 2010. On May 31, 2011, we completed the merger of our Brazilian business with Boa Vista Servicos S.A. ("BVS") in exchange for a 15 percent equity interest in BVS, which is now the second largest consumer and commercial credit information company in Brazil. Excluding Brazilian operating results in both periods, a non-GAAP measure, second quarter revenue was up 7 percent.

Second quarter diluted EPS from continuing operations attributable to Equifax was \$0.28, down 39 percent from the second quarter of 2010 driven by a loss on the merger of our Brazilian business of \$0.22 per share. The loss included the recognition of foreign exchange losses since our initial investment in 1998 and the income tax effects of the transaction. On a non-GAAP basis, adjusted EPS from continuing operations attributable to Equifax, excluding the impact of the loss on the merger of our Brazilian business and acquisition-related amortization expense, was \$0.61, up 9 percent from the second quarter of 2010.

"Overall performance in the second quarter was solidly in line with our expectations. Continued weakness in the U.S. mortgage sector that weighed on some of our core operating segments was offset by double digit revenue growth in International, North America Personal Solutions, and North America Commercial. The merger of our Brazilian operations with Boa Vista Servicos creates a much stronger competitor in one of the most attractive markets in Latin America," said Richard F. Smith, Equifax's Chairman and Chief Executive Officer. "Economic and regulatory uncertainty exists; however, we are optimistic about our opportunities for the second half of 2011. Improving trends in core U.S. credit, strong performance with a couple of our more unique product offerings, improved operating performance in International, and continued market share gains in North America Personal Solutions and Commercial will offset the challenges we face in the mortgage market."

Second Quarter 2011 Highlights

- In addition to the financial highlights noted above, second quarter 2011 net income from continuing operations attributable to Equifax was \$34.5 million, a 40 percent decrease from the prior year driven by the \$27.8 million loss on the merger of our Brazilian business.
- Operating margin from continuing operations was 23.5 percent for the second quarter of 2011, up from 23.0 percent in the second quarter of 2010 and up from 23.1 percent in the first quarter of 2011.
- As a result of the merger of our Brazilian operations with Boa Vista Servicos, we recorded a \$27.8 million loss which included the recognition of foreign exchange losses since our initial investment in 1998 and the income tax effects of the transaction.
- We repurchased 0.8 million of our common shares on the open market for \$31.3 million during the second quarter of 2011. At June 30, 2011, our remaining authorization for future share repurchases was \$223.2 million.

Common Questions & Answers (Unaudited)

(Dollars in millions)

2. What drove the fluctuation in the effective tax rate?

Our effective tax rate from continuing operations was 59.4% for the three months ended June 30, 2011 up from 35.3% for the samperiod in 2010 due primarily to the impact of recording \$17.5 million of tax expense associated with the merger of our Brazilian business with BVS. The impact of the sale increased our effective rate 23.2% for the quarter. The remainder of the increase is due to a higher foreign income tax rate and the effect of changes in various state income tax laws.

3. Can you provide depreciation and amortization by segment?

Depreciation and amortization are as follows:

Notes to Reconciliations of Non-GAAP Financial Measures to the Comparable GAAP Financial Measures

Loss on the merger of Brazilian business – During the second quarter of 2011, the Company completed the merger of our Brazilian business with Boa Vista Servicos S.A. ("BVS") in exchange for a 15 percent equity interest in BVS. The Company recorded a \$27.8 million loss on the transaction. Management believes excluding the loss from certain financial results provides meaningful supplemental information regarding our financial results for the three and six months ended June 30, 2011, as compared to 2010, since a loss of such an amount is not comparable among the periods. This is consistent with how our management reviews and assesses Equifax's historical performance and is useful when planning, forecasting and analyzing future periods.

Diluted EPS from continuing operations attributable to Equifax, adjusted for loss on the merger of Brazilian business and acquisition-related amortization expense - We calculate this financial measure by excluding the loss on the merger of our Brazilian business and acquisition-related amortization expense from the determination of net income attributable to Equifax in the calculation of diluted EPS. These financial measures are not prepared in conformity with GAAP. Management believes that these measures are useful because management excludes acquisition-related amortization expense and other items that are not comparable when measuring operating profitability, evaluating performance trends, and setting performance objectives, and it allows investors to evaluate our performance for different periods on a more comparable basis by excluding items that relate to acquisition-related intangible assets and items that impact comparability.

Adjusted operating revenue, excluding the results of our Brazilian operations- Management believes excluding the results of our Brazilian operations from the calculation of operating revenue, on a non-GAAP basis, is useful because management excludes items that are not comparable when measuring operating profitability, evaluating performance trends, and setting performance objectives, and it allows investors to evaluate our performance for different periods on a more comparable basis by excluding items that impact comparability.
