#### FORWARD-LOOKING STATEMENTS

This report contains information that may constitute “forward-looking statements.” Generally, the words “believe,” “expect,” “intend,” “estimate,” “anticipate,” “project,” “will,” “may” and similar expressions identify forward-looking statements, which generally are not historical in nature. All statements that address operating performance, events or developments that we expect or anticipate will occur in the future, including statements relating to future operating results, the 2017 cybersecurity incident, improvements in our information technology and data security infrastructure, including as a part of our cloud data and technology transformation, our strategy, our ability to mitigate or manage disruptions posed by COVID-19, the impact of COVID-19 and changes in U.S. and worldwide economic conditions that materially impact consumer spending, consumer debt and employment and the demand for Equifax’s products and services, our culture, our ability to innovate, the market acceptance of new products and services and similar statements about our business plans are forward-looking statements. Management believes that these forward-looking statements are reasonable as and when made. However, forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from the Company’s historical experience and our present expectations or projections. These risks and uncertainties include, but are not limited to, those described in Part II, “Item 1A. Risk Factors,” and elsewhere in our Annual Report on Form 10-K for the year ended December 31, 2020, as well as subsequent reports filed with the Securities and Exchange Commission. As a result of such risks and uncertainties, we urge you not to place undue reliance on any such forward-looking statements. Forward-looking statements speak only as of the date when made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

**Nature of Operations.** We collect, analyze and manage various types of financial, demographic, employment and marketing information. Our products and services enable businesses to make credit and service decisions, manage their portfolio risk, automate or outsource certain payroll-related, tax and human resources business processes, and develop marketing strategies concerning consumers and commercial enterprises. We serve customers across a wide range of industries, including the financial services, mortgage, retail, telecommunications, utilities, automotive, brokerage, healthcare and insurance industries, as well as government agencies. We also enable consumers to manage and protect their financial health through a portfolio of products offered directly to consumers. As of June 30, 2021, we operated in the following countries: Argentina, Australia, Canada, Chile, Costa Rica, Ecuador, El Salvador, Honduras, India, Ireland, Mexico, New Zealand, Paraguay, Peru, Portugal, Spain, the United Kingdom, or U.K., Uruguay and the United States of America, or U.S. We also offer Equifax branded credit services in Russia through a joint venture, have investments in consumer and/or commercial credit information companies through joint ventures in Cambodia, Malaysia and Singapore and have an investment in a consumer and commercial credit information company in Brazil.

We develop, maintain and enhance secured proprietary information databases through the compilation of consumer specific data, including credit, income, employment, asset, liquidity, net worth and spending activity, and business data, including credit and business demographics, that we obtain from a variety of sources, such as credit granting institutions, and income and tax information primarily from large to mid-sized companies in the U.S. We process this information utilizing our proprietary information management systems. We also provide information, technology and services to support debt collections and recovery management.

**Basis of Presentation.** The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP, the instructions to Form 10-Q and applicable sections of SEC Regulation S-X. This Form 10-Q should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in our annual report on Form 10-K for the year ended December 31, 2020 ("2020 Form 10-K").

Our unaudited Consolidated Financial Statements reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the periods presented and are of a normal recurring nature.

**Earnings Per Share.** Our basic earnings per share, or EPS, is calculated as net income attributable to Equifax divided by the weighted-average number of common shares outstanding during the period. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options, restricted stock units, or other contracts to issue common stock were exercised and resulted in additional common shares outstanding. The net income amounts used in both our basic and diluted EPS calculations are the same. A reconciliation of the weighted-average outstanding shares used in the two calculations is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
	<i>(In millions)</i>			
Weighted-average shares outstanding (basic)	121.8	121.4	121.8	121.4
Effect of dilutive securities:				
Stock options and restricted stock units	1.7	1.3	1.6	1.3
Weighted-average shares outstanding (diluted)	<u>123.5</u>	<u>122.7</u>	<u>123.4</u>	<u>122.7</u>

For the three and six months ended June 30, 2021 and 2020, stock options that were anti-dilutive were not material.

**Financial Instruments.** Our financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and short and long-term debt. The carrying amounts of these items, other than long-term debt, approximate their fair market values due to the short-term nature of these instruments. The fair value of our fixed-rate debt is determined using Level

2 inputs such as quoted market prices for similar publicly traded instruments and for non-publicly traded instruments through valuation techniques involving observable inputs based on the specific characteristics of the debt instrument. As of June 30, 2021 and December 31, 2020, the fair value of our long-term debt, including the current portion, was \$4.2 billion and \$4.8 billion, respectively, compared to its carrying value of \$3.9 billion and \$4.4 billion, respectively.

**Fair Value Measurements.** Fair value is determined based on the assumptions marketplace participants use in pricing the asset or liability. We use a three level fair value hierarchy to prioritize the inputs used in valuation techniques between observable inputs that reflect quoted prices in active markets, inputs other than quoted prices with observable market data and unobservable data (e.g., a company's own data).

**Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis.** We completed various acquisitions during the six months ended June 30, 2021 and the year ended December 31, 2020. The values of net assets acquired and the resulting goodwill were recorded at fair value using Level 3 inputs. The majority of the related current assets acquired and liabilities assumed were recorded at their carrying values as of the date of acquisition, as their carrying values approximated their fair values due to their short-term nature. The fair values of goodwill and definite-lived intangible assets acquired in these acquisitions were internally or externally estimated primarily based on the income approach. The income approach estimates fair value based on the present value of the cash flows that the assets are expected to generate in the future. We developed internal estimates for the expected cash flows and discount rates used in the present value calculations.

**Trade Accounts Receivable and Allowance for Doubtful Accounts.** Accounts receivable are stated at cost. Significant payment terms for customers are identified in the contract. We do not recognize interest income on our trade accounts receivable. Additionally, we generally do not require collateral from our customers related to our trade accounts receivable.

The allowance for doubtful accounts is based on management's estimate for expected credit losses for outstanding trade accounts receivables. We determine expected credit losses based on historical write-off experience, an analysis of the aging of outstanding receivables, customer payment patterns and the establishment of specific reserves for customers in an adverse financial condition. We also consider expected changes in macroeconomic conditions that may impact the collectability of outstanding receivables in determining expected credit losses. We reassess the adequacy of the allowance for doubtful accounts each reporting period. Increases to the allowance for doubtful accounts are recorded as bad debt expense, which are included in selling, general and administrative expenses in the accompanying Consolidated Statements of Income. Below is a rollforward of our allowance for doubtful accounts for the three and six months ended June 30, 2021 and 2020, respectively.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
	(In millions)			
Allowance for doubtful accounts, beginning of period	\$ 11.8	\$ 13.4	\$ 12.9	\$ 11.2
Current period bad debt expense	0.3	4.4	—	6.9
Write-offs, net of recoveries	(0.9)	(0.9)	(1.7)	(1.2)
Allowance for doubtful accounts, end of period	\$ 11.2	\$ 16.9	\$ 11.2	\$ 16.9

**Other Current Assets.** Other current assets on our Consolidated Balance Sheets include amounts receivable from tax authorities. Other current assets also include amounts in specifically designated accounts that hold the funds that are due to customers from our debt collection and recovery management services. As of June 30, 2021, these assets were approximately \$8.6 million, with a corresponding balance in other current liabilities. These amounts are restricted as to their current use, and will be released according to the specific customer agreements.

**Other Assets.** Other assets on our Consolidated Balance Sheets primarily represent our investments in unconsolidated affiliates, the Company's operating lease right-of-use assets, employee benefit trust assets, long-term deferred tax assets and assets related to life insurance policies covering certain officers of the Company.

**Equity Investment.** We record our equity investment in Brazil within Other Assets at fair value, using observable Level 1 inputs. The carrying value of the investment has been adjusted to \$17.9 million as of June 30, 2021 based on quoted market prices as of the date noted above, resulting in an unrealized loss of \$5.6 million and \$17.5 million for the three and six months ended June 30, 2021. All unrealized gains or losses on the investment are recorded in Other income (expense), net within the Consolidated Statements of Income.

**Other Current Liabilities.** Other current liabilities on our Consolidated Balance Sheets consist of the current portion of operating lease liabilities and various accrued liabilities such as costs related to the 2017 cybersecurity incident as described more fully in Note 6. Other current liabilities also include corresponding amounts of other current assets related to amounts in

specifically designated accounts that hold the funds that are due to customers from our debt collection and recovery management services. As of June 30, 2021, these funds were approximately \$18.6 million. These amounts are restricted as to their current use and will be released according to the specific customer agreements.

**Recent Accounting Pronouncements.** In March 2020, the FASB issued ASU No. 2020-04 "Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting." The update provides optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) contract modifications on financial reporting, caused by reference rate reform. ASU 2020-04 is effective for all entities as of March 12, 2020 through December 31, 2022. We are still evaluating the impact, but do not expect the adoption of the standard to have a material impact on our Consolidated Financial Statements.

## 2. REVENUE

**Revenue Recognition.** Based on the information that management reviews internally for evaluating operating segment performance and nature, amount, timing, and uncertainty of revenue and cash flows affected by economic factors, we disaggregate revenue as follows:

Consolidated Operating Revenue	Three Months Ended June 30,				Six Months Ended June 30,			
	2021	2020	Change		2021	2020	Change	
	(In millions)				(In millions)

Total operating revenue	\$ 1,234.8	\$ 982.8	\$ 252.0	26	\$ 2,447.8	\$ 1,940.8	\$ 507.0	26

**Remaining Performance Obligation** – We have elected to disclose only the remaining performance obligations for those contracts with an expected duration of greater than one year and do not disclose the value of remaining performance obligations for contracts in which we recognize revenue at the amount to which we have the right to invoice. We expect to recognize as revenue the following amounts related to our remaining performance obligations as of June 30, 2021, inclusive of foreign exchange impact:

Performance Obligation	Amount (In millions)
Less than 1 year	\$ 34.9
1 to 3 years	34.8
3 to 5 years	20.9
Thereafter	38.8
Total remaining performance obligation	\$ 129.4

### 3. ACQUISITIONS AND INVESTMENTS

**2021 Acquisitions and Investments.** On February 10, 2021, the Company acquired 100% of the ordinary shares of Kount, a provider of fraud prevention and digital identity solutions for \$640 million within the U.S. Information Solutions business unit. Additionally in the first quarter of 2021, the Company acquired 100% of HIREtech and i2Verify within the Workforce Solutions business unit as well as a small acquisition and purchase of the remaining noncontrolling interest of a business within our International business unit. All of these acquisitions expand the Company's data assets as well as product offerings. The purchase price allocations for these acquisitions are not yet finalized and open areas consist of income taxes and working capital. Accordingly, adjustments may be made to the values of the assets acquired and liabilities assumed as additional information is obtained about the facts and circumstances that existed at the valuation date.

**2020 Acquisitions and Investments.** In February 2020, we acquired the remaining 40.6% interest in our India joint venture.

### 4. GOODWILL AND INTANGIBLE ASSETS

**Goodwill.** Goodwill represents the cost in excess of the fair value of the net assets acquired in a business combination. Goodwill is tested for impairment at the reporting unit level on an annual basis and on an interim basis if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. We perform our annual goodwill impairment tests as of September 30.

Changes in the amount of goodwill for the six months ended June 30, 2021, are as follows:

	Workforce Solutions	U.S. Information Solutions	International	Global Consumer Solutions	Total
Balance, December 31, 2020	\$ 1,010.7	\$ 1,286.7	\$ 2,007.9	\$ 190.5	\$ 4,495.8
Acquisitions	128.2	433.1	18.4	—	579.7

Balance, June 30, 2021	\$ 1,140.2	\$ 1,719.6	\$ 2,032.2	\$ 193.1	\$ 5,085.1

**Indefinite-Lived Intangible Assets.** Indefinite-lived intangible assets consist of indefinite-lived reacquired rights representing the value of rights which we had granted to various affiliate credit reporting agencies that were reacquired in the U.S. and Canada. At the time we acquired these agreements, they were considered perpetual in nature under the accounting guidance in place at that time and, therefore, the useful lives are considered indefinite. Indefinite-lived intangible assets are not amortized. We are required to test indefinite-lived intangible assets for impairment annually and whenever events or circumstances indicate that there may be an impairment of the asset value. We perform our annual indefinite-lived intangible asset impairment test as of September 30. The estimated fair value of our indefinite-lived intangible assets exceeded the carrying value as of September 30, 2020. As a result, no impairment was recorded. Our indefinite-lived intangible asset carrying amounts did not change materially during the six months ended June 30, 2021.

**Purchased Intangible Assets.** Purchased intangible assets represent the estimated acquisition date fair value of acquired intangible assets used in our business. Purchased data files represent the estimated acquisition date fair value of consumer information files acquired primarily through the purchase of independent credit reporting agencies in the U.S., Canada and Australia. We expense the cost of modifying and updating credit files in the period such costs are incurred. We amortize all of our purchased intangible assets on a straight-line basis. For additional information about the useful lives related to our purchased intangible assets, see Note 1 of the Notes to Consolidated Financial Statements in our 2020 Form 10-K.

Purchased intangible assets at June 30, 2021 and December 31, 2020 consisted of the following:

	June 30, 2021			December 31, 2020		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
<b>Definite-lived intangible assets:</b>	<i>(In millions)</i>

Amortization expense related to purchased intangible assets was \$40.1 million and \$34.8 million during the three months ended June 30, 2021 and 2020, respectively. Amortization expense related to purchased intangible assets was \$79.5 million and \$69.8 million during the six months ended June 30, 2021 and 2020, respectively.

Estimated future amortization expense related to definite-lived purchased intangible assets at June 30, 2021 is as follows:

Years ending December 31,	Amount
	<i>(In millions)</i>
2021	\$ 78.5

## 5. DEBT

Debt outstanding at June 30, 2021 and December 31, 2020 was as follows:

	June 30, 2021	December 31, 2020
	<i>(In millions)</i>

Less unamortized discounts and debt issuance costs	(19.7)	(23.8)
Total long-term debt, net	\$ 3,280.9	\$ 3,277.3

**2.6% and 3.1% Senior Notes.** On April 22, 2020, we issued \$400.0 million aggregate principal amount of 2.6% five-year Senior Notes due 2025 (the "2025 Notes") and \$600.0 million aggregate principal amount of 3.1% ten-year Senior Notes due 2030 (the "2030 Notes") in an underwritten public offering. Interest on the 2025 Notes accrues at a rate of 2.6% per year and is payable semi-annually in arrears on June 15 and December 15 of each year. Interest on the 2030 Notes accrues at a rate of 3.1% per year and is payable semi-annually in arrears on May 15 and November 15 of each year. The net proceeds of the sale of the notes were used to repay borrowings under a \$25.0 million receivables funding facility ("Receivables Facility") that was terminated in November 2020, while the remaining funds are intended for general corporate purposes, which may include the repayment of a portion of the 2021 debt maturities or borrowings under our \$1.1 billion five-year unsecured revolving credit facility. We must comply with various non-financial covenants, including certain limitations on mortgages, liens and sale-leaseback transactions, as well as mergers and sales of substantially all of our assets. The 2025 Notes and 2030 Notes are unsecured and rank equally with all of our other unsecured and unsubordinated indebtedness.

**Senior Credit Facility.** In September 2018, the Company entered into a \$1.1 billion five-year unsecured revolving credit facility with a group of financial institutions, which will mature in September 2023 (the "Revolver"). Borrowings under the Revolver may be used for general corporate purposes, including working capital, capital expenditures, acquisitions and share repurchase programs. The Revolver has an accordion feature that allows us to request an increase in the total commitment to \$1.6 billion. The Revolver includes an option to request a maximum of two one-year extensions of the maturity date, any time after the first anniversary of the Revolver closing. Availability of the Revolver is reduced by the outstanding principal balance of our commercial paper notes and by any letters of credit issued under the facility. As of June 30, 2021, there were \$0.7 million of letters of credit outstanding, no principal drawn amounts under the Revolver, and no commercial paper borrowings. Availability under the Revolver was \$1.1 billion at June 30, 2021.

**Commercial Paper Program.** Our \$1.1 billion commercial paper program has been established through the private placement of commercial paper notes from time-to-time, in which borrowings may bear interest at either a floating rate or a fixed rate, plus the applicable margin. Maturities of commercial paper can range from overnight to 397 days. Because the commercial paper is backstopped by our Revolver, the amount of commercial paper which may be issued under the program is reduced by the outstanding face amount of any letters of credit issued and by the outstanding borrowings under our Revolver. At June 30, 2021, there were no outstanding commercial paper notes.

For additional information about our debt agreements, see Note 5 of the Notes to Consolidated Financial Statements in our 2020 Form 10-K.

## 6. COMMITMENTS AND CONTINGENCIES

**Litigation, Claims and Government Investigations Related to the 2017 Cybersecurity Incident.** In 2017, we experienced a cybersecurity incident following a criminal attack on our systems that involved the theft of certain personally identifiable information of U.S., Canadian and U.K. consumers. Following the 2017 cybersecurity incident, hundreds of class actions and other lawsuits were filed against us typically alleging harm from the incident and seeking various remedies, including monetary and injunctive relief. We were also subject to investigations and inquiries by federal, state and foreign governmental agencies and officials regarding the 2017 cybersecurity incident and related matters. Most of these lawsuits and government investigations have concluded or been resolved, including pursuant to the settlement agreements described below, while others remain ongoing. The Company's participation in these settlements does not constitute an admission by the Company of any fault or liability, and the Company does not admit fault or liability.

We believe it is probable that we will incur losses associated with certain of the proceedings and investigations related to the 2017 cybersecurity incident. In 2019, we recorded expenses, net of insurance recoveries, of \$800.9 million in other current liabilities and selling, general, and administrative expenses in our Consolidated Balance Sheets and Statements of Income (Loss), respectively, exclusive of our legal and professional services expenses. The amount accrued represents our best estimate of the liability related to these matters. The Company will continue to evaluate information as it becomes known and adjust accruals for new information and further developments in accordance with ASC 450-20-25. While it is reasonably possible that losses exceeding the amount accrued may be incurred, it is not possible at this time to estimate the additional possible loss in excess of the amount already accrued that might result from adverse judgments, settlements, penalties or other resolution of the proceedings and investigations described below based on a number of factors, such as the various stages of these proceedings and investigations, including matters on appeal, that alleged damages have not been specified or are uncertain, the uncertainty as to the certification of a class or classes and the size of any certified class, as applicable, and the lack of resolution on significant factual and legal issues. The ultimate amount paid on these actions, claims and investigations in excess of the amount already accrued could be material to the Company's consolidated financial condition, results of operations, or cash flows in future periods.

**Consumer Settlement.** On July 19, 2019 and July 22, 2019, we entered into multiple agreements that resolve the U.S. consolidated consumer class action cases, captioned *In re: Equifax, Inc. Customer Data Security Breach Litigation, MDL No. 2800* (the "U.S. Consumer MDL Litigation"), and the investigations of the FTC, the CFPB, the Attorneys General of 48 states, the District of Columbia and Puerto Rico and the NYDFS (collectively, the "Consumer Settlement"). Under the terms of the Consumer Settlement, the Company will contribute \$380.5 million to a non-reversionary settlement fund (the "Consumer Restitution Fund") to provide restitution for U.S. consumers identified by the Company whose personal information was compromised as a result of the 2017 cybersecurity incident as well as to pay reasonable attorneys' fees and reasonable costs and expenses for the plaintiffs' counsel in the U.S. Consumer MDL Litigation (not to exceed \$80.5 million), settlement administration costs and notice costs. The Company has agreed to contribute up to an additional \$125.0 million to the Consumer Restitution Fund to cover certain unreimbursed costs and expenditures incurred by affected U.S. consumers in the event the \$380.5 million in the Consumer Restitution Fund is exhausted. The Company also agreed to various business practice commitments related to consumer assistance and its information security program, including conducting third party assessments of its information security program.

On January 13, 2020, the Northern District of Georgia, the U.S. District Court overseeing centralized pre-trial proceedings for the U.S. Consumer MDL Litigation and numerous other federal court actions relating to the 2017 cybersecurity incident (the "MDL Court"), entered an order granting final approval of the settlement in connection with the U.S. Consumer MDL Litigation. The MDL Court entered an amended order granting final approval of the settlement (the "Final Approval Order") on March 17, 2020. Several objectors appealed the Final Approval Order to the U.S. Court of Appeals for the Eleventh Circuit (the "Eleventh Circuit"). On June 3, 2021, the Eleventh Circuit issued an order reversing the MDL Court's grant of incentive awards to class representatives, but affirming all other aspects of the Final Approval Order. Several objectors have filed petitions with the Eleventh Circuit seeking both a rehearing by the three-judge panel and a rehearing by the entire Eleventh Circuit. Until the appeals are finally adjudicated or dismissed, we can provide no assurance that the U.S. Consumer MDL Litigation will be resolved as contemplated by the settlement agreement. If the MDL Court's order approving the settlement is reversed by an appellate court, there is a risk that we would not be able to settle the U.S. Consumer MDL Litigation on acceptable terms or at all, which could have a material adverse effect on our financial condition and results of operations.

**Other Matters.** We face other lawsuits and government investigations related to the 2017 cybersecurity incident that have not yet been concluded or resolved. These ongoing matters may result in judgments, fines or penalties, settlements or other relief. We dispute the allegations in the remaining lawsuits and intend to defend against such claims. Set forth below are descriptions of the main categories of these matters.

**Georgia State Court Consumer Class Actions.** Four putative class actions arising from the 2017 cybersecurity incident were filed against us in Fulton County Superior Court and Fulton County State Court in Georgia based on similar allegations and theories as alleged in the U.S. Consumer MDL Litigation and seek monetary damages, injunctive relief and other related relief on behalf of Georgia citizens. These cases were transferred to a single judge in the Fulton County Business Court and three of the cases were consolidated into a single action. On July 27, 2018, the Fulton County Business Court granted the Company's motion to stay the remaining single case, and on August 17, 2018, the Fulton County Business Court granted the Company's motion to stay the consolidated case. These cases remain stayed pending final resolution of the U.S. Consumer MDL Litigation.

**Canadian Class Actions.** Five putative Canadian class actions, four of which are on behalf of a national class of approximately 19,000 Canadian consumers, are pending against us in Ontario, British Columbia and Alberta. Each of the proposed Canadian class actions asserts a number of common law and statutory claims seeking monetary damages and other related relief in connection with the 2017 cybersecurity incident. In addition to seeking class certification on behalf of Canadian consumers whose personal information was allegedly impacted by the 2017 cybersecurity incident, in some cases, plaintiffs also seek class certification on behalf of a larger group of Canadian consumers who had contracts for subscription products with Equifax around the time of the incident or earlier and were not impacted by the incident.

On December 13, 2019, the court in Ontario granted certification of a nationwide class that includes all impacted Canadians as well as Canadians who had subscription products with Equifax between March 7, 2017 and July 30, 2017 who were not impacted by the incident. We appealed one of the claims on which a class was certified and on June 9, 2021, our appeal was granted by the Ontario Divisional Court. The plaintiff has since filed a notice of further appeal. All remaining purported class actions are at preliminary stages or stayed.

**Government Investigations.** We have cooperated with federal, state and foreign governmental agencies and officials investigating or otherwise seeking information, testimony and/or documents, regarding the 2017 cybersecurity incident and related matters and most of these investigations have been resolved as discussed in prior filings.

The U.K.'s Financial Conduct Authority ("FCA") opened an enforcement investigation against our U.K. subsidiary, Equifax Limited, in October 2017. The investigation by the FCA has involved a number of information requirements and interviews. We continue to respond to the information requirements and are cooperating with the investigation.

Although we continue to cooperate in the above investigations and inquiries, an adverse outcome to any such investigations and inquiries could subject us to fines or other obligations, which could have a material adverse effect on our financial condition and results of operations.

#### **Data Processing, Outsourcing Services and Other Agreements**

We have separate agreements with Google, Amazon Web Services, IBM, Tata Consultancy Services and others to outsource portions of our network and security infrastructure, computer data processing operations, applications development, business continuity and recovery services, help desk service and desktop support functions, operation of our voice and data networks, maintenance and related functions and to provide certain other administrative and operational services. Annual payment obligations in regard to these agreements vary due to factors such as the volume of data processed; changes in our servicing needs as a result of new product offerings, acquisitions or divestitures; the introduction of significant new technologies; foreign currency; or the general rate of inflation. In certain circumstances (e.g., a change in control or for our convenience), we may terminate these data processing and outsourcing agreements, and, in doing so, certain of these agreements require us to pay significant termination fees.

#### **Guarantees and General Indemnifications**

We may issue standby letters of credit and performance and surety bonds in the normal course of business. The aggregate notional amounts of all performance and surety bonds and standby letters of credit was not material at June 30, 2021 and generally have a remaining maturity of one year or less. We may issue other guarantees in the ordinary course of business. The maximum potential future payments we could be required to make under the guarantees in the ordinary course of business was not material at June 30, 2021. We have agreed to guarantee the liabilities and performance obligations (some of which have limitations) of a certain debt collections and recovery management variable interest entity under its commercial agreements.

We have agreed to standard indemnification clauses in many of our lease agreements for office space, covering such things as tort, environmental and other liabilities that arise out of or relate to our use or occupancy of the leased premises.

Certain of our credit agreements include provisions which require us to make payments to preserve an expected economic return to the lenders if that economic return is diminished due to certain changes in law or regulations. In conjunction with certain transactions, such as sales or purchases of operating assets or services in the ordinary course of business, or the disposition of certain assets or businesses, we sometimes provide routine indemnifications, the terms of which range in duration and sometimes are not limited. Additionally, the Company has entered into indemnification agreements with its directors and executive officers to indemnify such individuals to the fullest extent permitted by applicable law against liabilities that arise by reason of their status as directors or officers. The Company maintains directors and officers liability insurance coverage to reduce its exposure to such obligations.

We cannot reasonably estimate our potential future payments under the guarantees and indemnities and related provisions described above because we cannot predict when and under what circumstances these provisions may be triggered.

#### Contingencies

In addition to the matters set forth above, we are involved in legal and regulatory matters, government investigations, claims and litigation arising in the ordinary course of business. We periodically assess our exposure related to these matters based on the information that is available. We have recorded accruals in our Consolidated Financial Statements for those matters in which it is probable that we have incurred a loss and the amount of the loss, or range of loss, can be reasonably estimated.

For additional information about these and other commitments and contingencies, see Note 6 of the Notes to Consolidated Financial Statements in our 2020 Form 10-K.

#### 7. INCOME TAXES

We are subject to U.S. federal, state and international income taxes. We are generally no longer subject to federal, state, or international income tax examinations by tax authorities for years before 2017 with a few exceptions. Due to the potential for resolution of state and foreign examinations, and the expiration of various statutes of limitations, it is reasonably possible that our gross unrecognized tax benefit balance may change within the next twelve months by a range of \$0 to \$6.8 million.

##### Effective Tax Rate

Our effective income tax rate was 22.1% for the three months ended June 30, 2021, compared to 21.8% for the three months ended June 30, 2020. Our effective income tax rate was 23.2% for the six months ended June 30, 2021, compared to 23.0% for the six months ended June 30, 2020. Our effective tax rate was slightly higher for the second quarter and first six months of 2021 as compared to 2020 due to a greater foreign income tax rate differential.

In the first quarter of 2020, the adverse economic effects of the COVID-19 pandemic caused the Company to reassess the need for valuation allowances against deferred tax assets. As a result of this analysis, the Company determined it was necessary to place valuation allowances against deferred tax assets of certain subsidiaries. The total amount of the valuation allowances recorded in the first quarter of 2020 was approximately \$7.0 million.

#### 8. ACCUMULATED OTHER COMPREHENSIVE LOSS

Changes in accumulated other comprehensive loss by component, after tax, for the six months ended June 30, 2021, are as follows:

	Foreign currency	Pension and other postretirement benefit plans	Cash flow hedging transactions	Total
	<i>(In millions)</i>			
Balance, December 31, 2020	\$ (168.4)	\$ (2.0)	\$ (1.0)	\$ (171.4)
Other comprehensive income before reclassifications	15.2	—	—	15.2
Amounts reclassified from accumulated other comprehensive loss	—	(0.6)	—	(0.6)
Net current-period other comprehensive income (loss)	15.2	(0.6)	—	14.6
Balance, June 30, 2021	\$ (153.2)	\$ (2.6)	\$ (1.0)	\$ (156.8)

Changes in accumulated other comprehensive loss related to noncontrolling interests were not material as of June 30, 2021.

## 9. RESTRUCTURING CHARGES

In the fourth quarter of 2020, we recorded \$31.9 million (\$24.3 million, net of tax) of restructuring charges, all of which were recorded in selling, general and administrative expenses within our Consolidated Statements of Income. These charges were recorded to general corporate expense and resulted from our continuing efforts to realign our internal resources to support the Company's strategic objectives and primarily relate to a reduction in headcount. To date, we have paid \$21.3 million of the 2020 restructuring costs with \$7.2 million and \$17.3 million of it paid during the three and six months ended June 30, 2021, respectively. The remaining future payments are expected to be completed later in 2021.

## 10. SEGMENT INFORMATION

**Reportable Segments.** We manage our business and report our financial results through the following four reportable segments, which are the same as our operating segments:

- Workforce Solutions
- U.S. Information Solutions (“USIS”)
- International
- Global Consumer Solutions (“GCS”)

The accounting policies of the reportable segments are the same as those described in our summary of significant accounting policies in Note 1 of the Notes to Consolidated Financial Statements in our 2020 Form 10-K. We evaluate the performance of these reportable segments based on their operating revenues, operating income and operating margins, excluding unusual or infrequent items, if any. The measurement criteria for segment profit or loss and segment assets are substantially the same for each reportable segment. Inter-segment sales and transfers are not material for all periods presented. All transactions between segments are accounted for at fair market value or cost depending on the nature of the transaction, and no timing differences occur between segments.

A summary of segment products and services is as follows:

**Workforce Solutions.** This segment includes employment, income and social security number verification services as well as complementary payroll-based transaction services and employment tax management services.

**U.S. Information Solutions.** This segment includes consumer and commercial information services (such as credit information and credit scoring, credit modeling services and portfolio analytics (decisioning tools), which are derived from our databases of business credit and financial information, locate services, fraud detection and prevention services, identity verification services and other consulting services); mortgage loan origination services; financial marketing services; and identity management.

**International.** This segment includes information services products, which includes consumer and commercial services (such as credit and financial information, credit scoring and credit modeling services), credit and other marketing products and services. In Asia Pacific, Europe, Latin America and Canada, we also provide information, technology and services to support debt collections and recovery management.

**Global Consumer Solutions.** This segment includes credit information, credit monitoring and identity theft protection products sold directly and indirectly to consumers via the internet and in various hard-copy formats in the U.S., Canada, and the U.K. We also sell consumer and credit information to resellers who combine our information with other information to provide direct to consumer monitoring, reports and scores.

Operating revenue and operating income by operating segment during the three and six months ended June 30, 2021 and 2020 are as follows:

<i>(In millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

As used herein, the terms Equifax, the Company, we, our and us refer to Equifax Inc., a Georgia corporation, and its consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only Equifax Inc.

All references to earnings per share data in Management's Discussion and Analysis, or MD&A, are to diluted earnings per share, or EPS, unless otherwise noted. Diluted EPS is calculated to reflect the potential dilution that would occur if stock options or other contracts to issue common stock were exercised and resulted in additional common shares outstanding.

## BUSINESS OVERVIEW

Equifax Inc. is a global data, analytics and technology company. We provide information solutions and human resources business process outsourcing services for businesses, governments and consumers. We have a large and diversified group of clients, including financial institutions, corporations, governments and individuals. Our services are based on comprehensive databases of consumer and business information derived from numerous sources including credit, financial assets, telecommunications and utility payments, employment, income, demographic and marketing data. We use advanced statistical techniques, machine learning and proprietary software tools to analyze available data to create customized insights, decision-making solutions and processing services for our clients. We also provide information, technology and services to support debt collections and recovery management. Additionally, we are a leading provider of payroll-related and human resource management business process outsourcing services in the U.S. For consumers, we provide products and services to help people understand, manage and protect their personal information and make more informed financial decisions.

We currently operate in four global regions: North America (U.S. and Canada), Asia Pacific (Australia, New Zealand and India), Europe (the U.K., Spain and Portugal) and Latin America (Argentina, Chile, Costa Rica, Ecuador, El Salvador, Honduras, Mexico, Paraguay, Peru and Uruguay). We maintain support operations in the Republic of Ireland, Chile, Costa Rica and India. We also offer Equifax branded credit services in Russia through a joint venture, have investments in consumer and/or commercial credit information companies through joint ventures in Cambodia, Malaysia and Singapore and have an investment in a consumer and commercial credit information company in Brazil.

### Recent Events and Company Outlook

As further described in our 2020 Form 10-K, we operate in the U.S., which represented 78% of our revenue in 2020, and internationally in 24 countries. Our products and services span a wide variety of vertical markets including financial services, mortgage, federal, state and local governments, automotive, telecommunications and many others.

In March 2020, the World Health Organization designated the novel coronavirus disease (“COVID-19”) as a global pandemic. The impact of COVID-19 and related actions to attempt to control its spread began to impact our consolidated operating results in the first quarter of 2020. During 2020, the impact on the operating results in each country in which we operate differed based on the conditions and the vertical markets we serve in that country with the impact of the pandemic experienced most severely by our International business. Details of the impact of COVID-19 to our 2020 results can be found under the heading “Segment Financial Results” in the Management’s Discussion and Analysis of Financial Condition and Results of Operation section of the 2020 Form 10-K. In the second quarter and first six months of 2021, as efforts to minimize the spread of COVID-19 have been more successful and access to vaccinations has increased, our consolidated revenue grew when compared to 2020, reflecting the continuing strong U.S. mortgage market demand, recovering country economies, Equifax-initiative growth and, to a lesser extent, revenue from acquired companies. A more thorough discussion of our business unit results are included under the heading “Segment Financial Results” in the Management’s Discussion and Analysis of Financial Condition and Results of Operation section of this Form 10-Q. We are unable to determine the severity or duration of the impact of the COVID-19 pandemic on the individual markets in the countries we serve or how this impact will change with time. Although consolidated revenue has grown during the second quarter and first six months of 2021 when compared to 2020, due to the uncertain effects on the global economy caused by the impact of COVID-19, the impact on our future results of operations related to the COVID-19 pandemic are unclear.

We expect that the global COVID-19 pandemic will continue to impact our business and results of operations. While the COVID-19 pandemic affects the countries in which we operate, our critical priorities remain as follows:

- (i) the health and safety of our employees and their families;
- (ii) providing support to consumers;
- (iii) helping our customers execute their changing business plans by providing innovative solutions combining our unique data assets and leading analytical and technology capabilities; and
- (iv) executing on our cloud technology, data and security transformation per our previously stated plans.

We are generally following the requirements and protocols published by the U.S. Centers for Disease Control and the World Health Organization, and state and local governments. In jurisdictions where local restrictions have been lifted, as is the case at our major U.S. locations, our employees are returning to work to their assigned offices in conjunction with jurisdictional guidance. In jurisdictions where the local restrictions that were implemented to prevent the further spread of the virus allow, our employees can work from their assigned offices or from home, with limits placed on the number of employees on site at one

time. Generally across our facilities, we have increased the level of cleaning and sanitizing and undertaken other actions to make these sites safer, including social distancing protocols. We have also substantially reduced employee travel. If public health authorities dictate further measures to limit further spread of the virus, we may need to reinstate our business continuity plans in certain countries or regions in which we operate. As of the date of this filing, we do not believe our work from home and return to office protocols have materially adversely impacted our internal controls, financial reporting systems or our operations.

Our data and analytics, product and sales teams are focused on how to refine existing products and services, as well as generate new products and services, to meet the changing needs of our customers in this environment. Our technology teams continue to execute on our cloud technology, data and security transformation, including the continued migration of our technology to cloud native environments. To date, the change to our working environment has not caused material disruptions in the execution of these plans.

As a response to the ongoing COVID-19 pandemic, we implemented plans to manage our costs. We limited the addition of new employees and third party contracted services, limited most travel except where necessary to meet customer or regulatory needs, and acted to limit discretionary spending. The pace of recovery of the global economy from the COVID-19 induced recession remains uncertain and may affect certain markets or regions we serve differently. Any future asset impairment charges, increase in allowance for doubtful accounts, or restructuring charges could be more likely and will be dependent on the severity and duration of this crisis.

In light of the evolving health, social, economic and business environment, governmental regulations or mandates, and business disruptions that could occur, the potential impact that COVID-19 could have on our financial condition and operating results remains uncertain.

For more information, see “Item 1A. Risk Factors—*Our business has been and will continue to be negatively impacted by the recent COVID-19 outbreak*,” in our 2020 Form 10-K.

#### **2017 Cybersecurity Incident**

In 2017, we experienced a cybersecurity incident following a criminal attack on our systems that involved the theft of certain personally identifiable information of U.S., Canadian and U.K. consumers. Criminals exploited a software vulnerability in a U.S. website application to gain unauthorized access to our network. In March 2017, the U.S. Department of Homeland Security distributed a notice concerning the software vulnerability. We undertook efforts to identify and remediate vulnerable systems; however, the vulnerability in the website application that was exploited was not identified by our security processes. We discovered unusual network activity in late-July 2017 and upon discovery promptly investigated the activity. Once the activity was identified as potential unauthorized access, we acted to stop the intrusion and engaged a leading, independent cybersecurity firm to conduct a forensic investigation to determine the scope of the unauthorized access, including the specific information impacted. Based on our forensic investigation, the unauthorized access occurred from mid-May 2017 through July 2017. No evidence was found that the Company’s core consumer, employment and income, or commercial reporting databases were accessed. On February 10, 2020, the U.S. Department of Justice announced that four members of the Chinese People’s Liberation Army were indicted on criminal charges for their involvement in the 2017 cybersecurity incident.

As a result of the 2017 cybersecurity incident, we were subject to a significant number of proceedings and investigations as described in Part II, “Item 1. Legal Proceedings” in this Form 10-Q. We did not record any settlement expenses related to the resolution of these proceedings and investigations for the three or six months ended June 30, 2021 and 2020. To date, we have recorded legal settlement expenses, net of insurance recoveries, of \$800.9 million in selling, general, and administrative expenses in our Consolidated Statements of Income (Loss). As of June 30, 2021, \$345.0 million is outstanding on the Consolidated Balance Sheet within other current liabilities related to the U.S. Consumer MDL Litigation. The amounts accrued represent our best estimate of the liability related to these matters. The Company will continue to evaluate information as it becomes known and adjust accruals for new information and further developments in accordance with ASC 450-20-25.

#### **Future Costs**

We are currently executing substantial initiatives in security and consumer support, and a company-wide transformation of our technology platforms to cloud based technologies, which we refer to as our technology transformation, and incurred substantially increased expenses and capital expenditures in 2018, 2019 and 2020 related to these initiatives. We expect to continue to incur additional expenses and capital expenditures in the remainder of 2021 related to these initiatives, although at reduced levels compared to those incurred in 2020.

We will recognize the expenses and capital expenditures referenced herein as they are incurred.

#### **Segment and Geographic Information**

**Segments.** The Workforce Solutions segment consists of the Verification Services and Employer Services business lines. Verification Services revenue is transaction-based and is derived primarily from employment and income verification. Employer Services revenue is derived from our provision of certain human resources business process outsourcing services that include both transaction and subscription based product offerings. These services include unemployment claims management, employment-based tax credit services and other complementary employment-based transaction services.

The USIS segment consists of three service lines: Online Information Solutions, Mortgage Solutions, and Financial Marketing Services. Online Information Solutions and Mortgage Solutions revenue is principally transaction-based and is derived from our sales of products such as consumer and commercial credit reporting and scoring, identity management, fraud detection and modeling services. USIS also markets certain decisioning software services that facilitate and automate a variety of consumer and commercial credit-oriented decisions. Financial Marketing Services revenue is principally project and subscription based and is derived from our sales of batch credit and consumer wealth information such as those that assist clients in acquiring new customers, cross-selling to existing customers and managing portfolio risk.

The International segment consists of Asia Pacific, Europe, Latin America and Canada. Canada's services are similar to our USIS offerings. Asia Pacific, Europe and Latin America are made up of varying mixes of service lines that are generally consistent with those in our USIS reportable segment. We also provide information and technology services to support lenders and other creditors in the collections and recovery management process.

GCS revenue is both transaction and subscription based and is derived from the sale of credit monitoring and identity theft protection products, which we deliver electronically to consumers primarily via the internet in the U.S., Canada, and the U.K. We also sell consumer and credit information to resellers who combine our information with other information to provide direct-to-consumer monitoring, reports and scores.

**Geographic Information.** We currently have operations in the following countries: Argentina, Australia, Canada, Chile, Costa Rica, Ecuador, El Salvador, Honduras, India, Mexico, New Zealand, Paraguay, Peru, Portugal, the Republic of Ireland, Spain, the U.K., Uruguay and the U.S. We also offer Equifax branded credit services in Russia through a joint venture, have investments in consumer and/or commercial credit information companies through joint ventures in Cambodia, Malaysia and Singapore and have an investment in a consumer and commercial credit information company in Brazil. Approximately 79% and 80% of our revenue was generated in the U.S. during the three months ended June 30, 2021 and 2020, respectively. Approximately 79% and 78% of our revenue was generated in the U.S. during the six months ended June 30, 2021 and 2020, respectively.

**Key Performance Indicators.** Management focuses on a variety of key indicators to monitor operating and financial performance. These performance indicators include measurements of operating revenue, change in operating revenue, operating income, operating margin, net income, diluted earnings per share, cash provided by operating activities and capital expenditures. The key performance indicators for the three and six months ended June 30, 2021 and 2020 were as follows:

	Key Performance Indicators							
	Three Months Ended June 30,			Six months ended June 30,				
	2021	2020		2021	2020			
	<i>(In millions, except per share data)</i>			<i>(In millions, except per share data)</i>

\*Amounts include accruals for capital expenditures.

#### Operational and Financial Highlights

- We repurchased 0.4 million shares of our common stock on the open market for \$69.9 million during the first six months of 2021. At June 30, 2021, \$520.2 million was available for future purchases of common stock under our share repurchase authorization.
- We paid out \$95.0 million or \$0.78 per share in dividends to our shareholders during the first six months of 2021.

**RESULTS OF OPERATIONS—THREE MONTHS ENDED JUNE 30, 2021 AND 2020**
**Consolidated Financial Results**
**Operating Revenue**

Consolidated Operating Revenue	Three Months Ended June 30,		Change		Six Months Ended June 30,		Change	
	2021	2020	\$	%	2021	2020	\$	%
	<i>(In millions)</i>				<i>(In millions)</i>			
Workforce Solutions	\$ 495.7	\$ 352.9	\$ 142.8	40 %	\$ 976.5	\$ 654.6	\$ 321.9	49 %
U.S. Information Solutions	405.8	365.6	40.2	11 %	815.2	708.8	106.4	15 %
International	250.9	180.5	70.4	39 %	492.3	396.5	95.8	24 %
Global Consumer Solutions	82.4	83.8	(1.4)	(2)%	163.8	180.9	(17.1)	(9)%
Consolidated operating revenue	<u>\$ 1,234.8</u>	<u>\$ 982.8</u>	<u>\$ 252.0</u>	<u>26 %</u>	<u>\$ 2,447.8</u>	<u>\$ 1,940.8</u>	<u>\$ 507.0</u>	<u>26 %</u>

Revenue increased by \$252.0 million, or 26%, and by \$507.0 million, or 26%, for the second quarter and first six months of 2021, respectively, compared to the same periods in 2020. Total revenue was positively impacted by foreign exchange rates, which increased revenue by \$26.2 million and \$45.4 million, or 3% and 2%, for the second quarter and first six months of 2021, respectively, compared to the same periods in 2020.

Revenue in the second quarter and first six months of 2021 increased primarily due to growth in Workforce Solutions, USIS and International businesses, partially offset by a decline in GCS.

**Operating Expenses**

Consolidated Operating Expenses	Three Months Ended June 30,		Change		Six Months Ended June 30,		Change	
	2021	2020	\$	%	2021	2020	\$	%
	<i>(In millions)</i>				<i>(In millions)</i>			
Consolidated cost of services	\$ 483.0	\$ 409.3	\$ 73.7	18 %	\$ 966.2	\$ 823.4	\$ 142.8	17 %
Consolidated selling, general and administrative expenses	328.4	309.9	18.5	6 %	637.3	626.0	11.3	2 %
Consolidated depreciation and amortization expense	117.4	96.8	20.6	21 %	231.7	188.7	43.0	23 %
Consolidated operating expenses	<u>\$ 928.8</u>	<u>\$ 816.0</u>	<u>\$ 112.8</u>	<u>14 %</u>	<u>\$ 1,835.2</u>	<u>\$ 1,638.1</u>	<u>\$ 197.1</u>	<u>12 %</u>

Cost of services increased \$73.7 million and \$142.8 million in the second quarter and first six months of 2021, respectively, compared to the same periods in 2020. The increases for both periods were primarily due to higher royalty costs, production costs, which include third party cloud usage fees, and people costs, partially offset by lower incremental technology and data security costs. The impact of changes in foreign exchange rates on costs of services led to an increase of \$13.7 million and \$24.3 million in the second quarter and first six months of 2021, respectively, compared to the same periods in 2020.

Selling, general and administrative expenses increased \$18.5 million and \$11.3 million for the second quarter and first six months of 2021, respectively, compared to the same periods in 2020. The increases for both periods were due to increases in people and advertising costs, partially offset by lower incremental technology and data security costs, as well as lower business travel costs for the first six months of 2021. The impact of changes in foreign currency exchange rates increased selling, general and administrative expenses by \$5.8 million and \$9.7 million in the second quarter and first six months of 2021, respectively, compared to the same periods in 2020.

Depreciation and amortization expense increased \$20.6 million and \$43.0 million in the second quarter and first six months of 2021, respectively, compared to the same periods in 2020. The increases are due to the higher amortization of capitalized internal-use software and system costs from technology transformation capital spending incurred in prior years, as well as higher amortization of acquisition costs.

### Operating Income and Operating Margin

Consolidated Operating Income	Three Months Ended June 30,		Change		Six Months Ended June 30,		Change	
	2021	2020	\$	%	2021	2020	\$	%
	(In millions)							
Consolidated operating revenue	\$ 1,234.8	\$ 982.8	\$ 252.0	26 %	\$ 2,447.8	\$ 1,940.8	\$ 507.0	26 %
Consolidated operating expenses	928.8	816.0	112.8	14 %	1,835.2	1,638.1	197.1	12 %
Consolidated operating income	\$ 306.0	\$ 166.8	\$ 139.2	83 %	\$ 612.6	\$ 302.7	\$ 309.9	102 %
Consolidated operating margin	24.8 %	17.0 %		7.8 pts	25.0 %	15.6 %		9.4 pts

Total company operating margin increased by 7.8 percentage points and 9.4 percentage points in the second quarter and first six months of 2021, respectively, compared to the same periods in 2020. The margin increase is due to increased revenue and decreased incremental technology and data security costs, partially offset by increased royalty and production costs, people costs, and depreciation expense.

### Interest Expense and Other Income (Expense), net

Interest expense decreased by \$1.7 million and increased by \$4.8 million in the second quarter and first six months of 2021, respectively, compared to the same periods in 2020. The decrease for the second quarter of 2021 is due to the retirement of the 2.3% senior notes during the period. The increase for the first six months of 2021 is due to the issuance of \$1.0 billion senior notes in April 2020, partially offset by the retirement of the 2.3% senior notes.

Other income (expense), net, increased by \$7.8 million and decreased by \$44.2 million in the second quarter and first six months of 2021, respectively, compared to the same periods in 2020. The increase for the second quarter is due to the change in foreign currency impacts of certain intercompany loans year over year, partially offset by the unrealized loss in 2021 related to the fair value adjustment of our investment in Brazil. The decrease for the first six months of 2021 is due to a \$32.9 million gain recorded in the first quarter of 2020 related to a fair value adjustment resulting from the acquisition of the remaining minority interest of our India joint venture. The first six months of 2021 was also impacted by the unrealized loss resulting from the fair value adjustment of our investment in Brazil in 2021, partially offset by the change in foreign currency impacts of certain intercompany loans year over year.

### Income Taxes

Our effective income tax rate was 22.1% for the three months ended June 30, 2021, compared to 21.8% for the three months ended June 30, 2020. Our effective income tax rate was 23.2% for the six months ended June 30, 2021, compared to 23.0% for the six months ended June 30, 2020. Our effective tax rate was slightly higher for the second quarter and first six months of 2021 as compared to 2020 due to a greater foreign income tax rate differential.

Consolidated net income increased by \$115.5 million and \$199.6 million for the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increase for both periods is due to increased operating income resulting from the increase in revenue from three of our operating segments, partially offset by higher tax expense, as well as the reduction in other income (expense) for the first six months of 2021.

Workforce Solutions revenue increased by 40% and 49% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increases were due to strong growth in Verification Services driven by growth in both mortgage and non-mortgage verticals. Employer Services revenue increased for the first six months of 2021 as growth across our onboarding and tax services businesses, as well as acquisition related growth were partially offset by a decline in our unemployment claims business. Employer Services revenue was flat in the second quarter of 2021 as a decline in our unemployment claims business as compared to the prior year period was offset by growth across our onboarding and tax services businesses, as well as acquisition related growth.

**Verification Services**

Revenue increased by 57% and 65% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increase for both periods is due to strong growth in the mortgage vertical and, to a lesser extent, the talent solutions vertical despite the reduction in mortgage inquiries beginning during the second quarter of 2021. Revenue growth for both mortgage and non-mortgage verticals are supported by continued addition of new records to The Work Number database.

### Employer Services

Revenue was flat for the second quarter of 2021 and increased by 8% in the first six months of 2021, compared to the same periods in 2020. Revenue in the second quarter of 2021 was flat, as acquisition revenue and the increase in employee services was offset by a decrease in unemployment claims revenue as the number of claims greatly increased in 2020 due to the economic impact of COVID-19 on the U.S. economy. The increase in the first six months of 2021 is due to acquisition revenue and growth in employee services, partially offset by the decrease in unemployment claims management revenue due to the reduction in unemployment claims compared to the prior year period.

### Workforce Solutions Operating Margin

Operating margin increased to 53.5% for the second quarter of 2021 from 49.4% for the second quarter of 2020 and to 54.3% for the first six months of 2021 from 47.0% for the first six months of 2020. The increased margins were due to the increase in revenue, partially offset by increases in royalty costs, production costs and depreciation expense.

USIS revenue increased by 11% and 15% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increase in the second quarter of 2021 is due to improvements in our core credit decisioning services, acquisition revenue and financial marketing services, partially offset by a slight decrease in mortgage solutions due to declining mortgage inquiry volumes. The increase for the first six months of 2021 is due to improvements in our core credit decisioning services, acquisition revenue, financial marketing services, as well as mortgage solutions related to the overall strength of the U.S. mortgage market as compared to the prior year.

### Online Information Solutions

Revenue increased by 13% and 16% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increases were due to improved core credit decisioning services volumes as well as revenue related to the Kount acquisition.

### Mortgage Solutions

Revenue decreased by 4% in the second quarter of 2021 and increased by 10% in the first six months of 2021, compared to the same periods in 2020. Mortgage origination transaction volumes are up for the first six months of 2021 but have started to decline in the second quarter, as compared to the prior year.

### Financial Marketing Services

Revenue increased by 14% and 13% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increase in both periods is due to increased marketing activities by customers as the U.S. economy continues its recovery from the economic impact of COVID-19.

## USIS Operating Margin

USIS operating margin increased to 31.1% for the second quarter of 2021 from 30.9% for the second quarter of 2020 and to 32.6% for the first six months of 2021 from 31.1% for the first six months of 2020. The slight margin increases for the second quarter and, to a greater extent, the first six months of 2021, were due to the increase in revenue and decrease in incremental technology and data security costs, partially offset by the increase in royalty, depreciation and production costs.

International revenue increased by 39% and 24% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. On a local currency basis, revenue increased by 25% and 13% in the second quarter and the first six months of 2021, respectively, driven by increases in all geographies as local economies continue to recover from negative impacts of COVID-19. Local currency fluctuations against the U.S. dollar positively impacted revenue by \$24.9 million, or 14%, for the second quarter of 2021 and by \$43.4 million, or 11%, for the first six months of 2021.

### Asia Pacific

On a local currency basis, revenue increased by 21% and 13% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increases in both periods were driven by growth in our commercial and identity and fraud businesses in Australia, as well as growth in our Australian consumer business mainly for the second quarter of 2021. Additionally, the increase in revenue for the second quarter is also attributable to growth in India due to higher consumer volumes related to economic recovery from the impacts of COVID-19. Local currency fluctuations against the U.S. dollar positively impacted revenue by \$12.8 million, or 19%, and \$25.3 million, or 19% for the second quarter and the first six months of 2021, respectively. Reported revenue increased by 40% and 32% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020.

### Europe

On a local currency basis, revenue increased by 27% and 9% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increases in both periods were driven by growth in the consumer and commercial verticals for the U.K. and Spain due to improving economic conditions in the second quarter of 2021, as well as growth in the debt management vertical driven by higher volumes within the private sector. Local currency fluctuations against the U.S. dollar positively impacted revenue by \$7.2 million, or 15%, and \$12.5 million, or 11% for the second quarter and the first six months of 2021, respectively. Reported revenue increased by 42% and 20% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020.

### Latin America

On a local currency basis, revenue increased by 30% and 14% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increases in both periods were driven by price increases in Argentina and growth in the consumer vertical primarily for Argentina, Ecuador and Peru during the second quarter due to economic recovery from the impacts of COVID-19 across the region. Local currency fluctuations against the U.S. dollar negatively impacted revenue by \$0.5 million, or 1%, and \$2.5 million, or 3% for the second quarter and the first six months of 2021, respectively. The negative foreign currency impacts in both periods were driven by negative impacts from Argentina, partially offset by positive impacts from Chile. Reported revenue increased by 29% and 11% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020.

### Canada

On a local currency basis, revenue increased by 26% and 19% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increases in both periods were driven by growth in the consumer, commercial, identity and fraud, and analytics businesses, mainly within the mortgage and fintech verticals, as Canada continues to recover from the negative impacts of COVID-19. Local currency fluctuations against the U.S. dollar positively impacted revenue by \$5.4 million, or 16%, and \$8.0 million, or 12% for the second quarter and the first six months of 2021, respectively. Reported revenue increased by 42% and 31% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020.

### International Operating Margin

Operating margin increased to 11.7% for the second quarter of 2021 from a 3.4% loss for the second quarter of 2020 and to 11.6% for the first six months of 2021 from 2.3% for the first six months of 2020. The increased margin for both periods is due to the increased revenue mentioned above, lower technology and data security costs and discretionary expense control, partially offset by increased people costs, royalty and production costs and depreciation expense.

Revenue decreased by 2% and 9% in the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. On a local currency basis, revenue decreased by 3% and 11% for the second quarter and the first six months of 2021, respectively. The reduction in revenue for both periods was driven by decreases in partner revenue, partially offset by growth in the direct to consumer business due to strong consumer subscription performance in North America. Local currency fluctuations against the U.S. dollar positively impacted revenue by \$1.3 million, or 1%, and \$2.0 million, or 2% for the second quarter and the first six months of 2021, respectively.

### GCS Operating Margin

Operating margin increased to 14.5% for the second quarter of 2021 from 9.3% for the second quarter of 2020 and to 15.8% for the first six months of 2021 from 11.5% for the first six months of 2020. The increased margins for both periods were due to a reduction in partner royalty costs and decrease in technology development costs, partially offset by increased depreciation expense and advertising costs.

## General Corporate Expense

General corporate expense	\$ 126.5	\$ 122.1	\$ 4.4	4 %	\$ 266.2	\$ 255.7	\$ 10.5	4 %

Our general corporate expenses are unallocated costs that are incurred at the corporate level and include those expenses impacted by corporate direction, including shared services, technology, security, data and analytics, administrative, legal, restructuring, and the portion of management incentive compensation determined by total company-wide performance.

General corporate expense increased by \$4.4 million and \$10.5 million for the second quarter and the first six months of 2021, respectively, compared to the same periods in 2020. The increase in both periods was due to an increase in people costs and depreciation expense, partially offset by a decrease in incremental technology and data security costs.

## LIQUIDITY AND FINANCIAL CONDITION

Management assesses liquidity in terms of our ability to generate cash to fund operating, investing and financing activities. We continue to generate substantial cash from operating activities, remain in a strong financial position, and manage our capital structure to meet short and long-term objectives including reinvestment in existing businesses and strategic acquisitions.

### Sources and Uses of Cash

Funds generated by operating activities, our Revolver and related commercial paper program, more fully described below, are our most significant sources of liquidity. At June 30, 2021, we had \$0.5 billion in cash balances, as well as \$1.1 billion available to borrow under our Revolver.

The Company has and expects to make payments to resolve certain legal proceedings and investigations related to the 2017 cybersecurity incident, described more fully in Part II, "Item 1. Legal Proceedings" in this Form 10-Q. Through June 30, 2021, the Company has made payments of \$443.6 million for legal settlements related to the 2017 cybersecurity incident. The remaining \$345.0 million to be paid to the Consumer Restitution Fund will be made after a final adjudication affirming the U.S. Consumer MDL Litigation settlement or dismissal of the pending appeals. Although we expect this payment and the remaining settlement payments to be made later in 2021, we can give no assurance that these payments will occur in 2021 due to pending approvals or appeals. As a result of the possible payments that could be made in 2021 related to the losses associated with certain legal proceedings and government investigations related to the 2017 cybersecurity incident and other requirements, funds generated by operating activities may not be sufficient to fund working capital and other cash requirements, including for acquisitions and share repurchases, throughout 2021. Our plan is to finance the payments with existing cash balances and borrowing capacity, as necessary. In the event that additional financing is needed, we would finance using the public and private corporate bond markets and/or syndicated loan markets, if available.

*Fund Transfer Limitations.* The ability of certain of our subsidiaries and associated companies to transfer funds to the U.S. may be limited, in some cases, by certain restrictions imposed by foreign governments. These restrictions do not, individually or in the aggregate, materially limit our ability to service our indebtedness, meet our current obligations or pay dividends. As of June 30, 2021, we held \$290.4 million of cash in our foreign subsidiaries.

Information about our cash flows, by category, is presented in the Consolidated Statements of Cash Flows. The following table summarizes our cash flows for the six months ended June 30, 2021 and 2020:

Net cash provided by (used in):	Six Months Ended June 30,		Change

Borrowings on long-term debt	\$ —	\$ 1,123.3	\$ (1,123.3)

### Credit Facility Availability

In September 2018, the Company entered into the Revolver, which is a \$1.1 billion five-year unsecured revolving credit facility with a group of financial institutions, that will mature in September 2023. Borrowings under the Revolver may be used for general corporate purposes, including working capital, capital expenditures, acquisitions and share repurchase programs. The Revolver has an accordion feature that allows us to request an increase in the total commitment to \$1.6 billion. The Revolver includes an option to request a maximum of two one-year extensions of the maturity date, any time after the first anniversary of the Revolver closing. We believe we are currently in compliance with all representations and warranties necessary as a condition for borrowing under the Revolver, but we cannot assure that we will be able to comply with all such conditions for borrowing in the future. Availability of the Revolver is reduced by the outstanding principal balance of our commercial paper notes and by any letters of credit issued under the facility. In April 2020, we amended our existing revolving credit facility to increase the maximum leverage ratio to provide additional financial flexibility as described further below.

Our \$1.1 billion commercial paper ("CP") program has been established to allow for borrowing through the private placement of CP with maturities ranging from overnight to 397 days. We may use the proceeds of CP for general corporate purposes. The CP program is supported by our Revolver and the total amount of CP which may be issued is reduced by the amount of any outstanding borrowings under our Revolver.

As of June 30, 2021, there were \$0.7 million of letters of credit issued under the Revolver, no principal drawn amounts under the Revolver, and no commercial paper borrowings. Availability under the Revolver was \$1.1 billion at June 30, 2021.

At June 30, 2021, 92% of our debt was fixed-rate debt and 8% was effectively variable debt. Our variable-rate debt consists of our floating rate notes due in 2021. The interest rates reset periodically, depending on the terms of the respective financing agreements. At June 30, 2021, the interest rate on our variable-rate debt was 1.03%.

### Borrowing and Repayment Activity

We primarily borrow under our CP program and Revolver as needed and as availability allows.

Net short-term borrowings primarily represent borrowings or repayments of outstanding amounts under our CP program.

Payments on long-term debt reflect \$500 million payments related to senior notes in the first six months of 2021 and \$125 million payments made related to the now-terminated Receivables Facility in the first six months of 2020.

Borrowings on long-term debt represent the net proceeds received from issuance of the 2025 and 2030 senior notes, as well as the net proceeds received from draw downs on the now-terminated Receivables Facility during the first six months of 2020.

*Debt Covenants.* A downgrade in our credit ratings would increase the cost of borrowings under our CP program and Revolver, and could limit or, in the case of a significant downgrade, preclude our ability to issue CP. Our outstanding indentures and comparable instruments also contain customary covenants including, for example, limits on mortgages, liens, and sale/leaseback transactions.

In April 2020, we amended our existing revolving credit facility to increase the maximum leverage ratio to provide additional financial flexibility. The amendment increases the maximum leverage ratio, defined as consolidated funded debt divided by consolidated EBITDA for the preceding four quarters, to (i) 4.5 to 1.0 for fiscal quarters ending on June 30, 2020 through and including September 30, 2021 and (ii) 4.0 to 1.0 for the fiscal quarter ending on December 31, 2021. The maximum leverage ratio will return to 3.5 to 1.0 beginning with the fiscal quarter ending March 31, 2022 and thereafter. Beginning January 1, 2021, we may also elect to increase the maximum leverage ratio by 0.5 to 1.0 (not to exceed 4.5 to 1.0) in connection with certain material acquisitions if we satisfy certain requirements. The amendment also (i) permits cash in excess of \$200 million to be netted against debt in the calculation of the leverage ratio through September 30, 2021, subject to certain restrictions and (ii) extends the add-back of certain expenses related to the 2017 cybersecurity incident to the definition of Consolidated EBITDA through December 31, 2021.

As of June 30, 2021, we were in compliance with all of our debt covenants.

We do not have any credit rating triggers that would accelerate the maturity of a material amount of the outstanding debt; however, our 3.6% senior notes due 2021, floating rate notes due 2021, 3.3% senior notes due 2022, 3.95% senior notes due 2023, 2.6% senior notes due 2024, 2.6% senior notes due 2025, 3.25% senior notes due 2026, 3.1% senior notes due 2030 and 7.0% senior notes due 2037 (collectively, the "Senior Notes") contain change in control provisions. If the Company experiences a change of control or publicly announces the Company's intention to effect a change of control and the rating on the Senior Notes is lowered by Standard & Poor's ("S&P") and Moody's Investors Service ("Moody's") below an investment grade rating within 60 days of such change of control or notice thereof, then the Company will be required to offer to repurchase the Senior Notes at a price equal to 101% of the aggregate principal amount of the Senior Notes plus accrued and unpaid interest. As of June 30, 2021, our S&P credit rating was BBB with a stable outlook and our Moody's credit rating was Baa2 with a stable outlook. These ratings are subject to change as events and circumstances change.

For additional information about our debt, including the terms of our financing arrangements, basis for floating interest rates and debt covenants, see Note 5 of the Notes to Consolidated Financial Statements in our 2020 Form 10-K.

#### Equity Transactions

Net cash provided by (used in):	Six Months Ended June 30,		Change
	2021	2020	2021 vs. 2020
	<i>(In millions)</i>		
Treasury stock repurchases	\$ (69.9)	\$ —	\$ (69.9)
Dividends paid to Equifax shareholders	\$ (95.0)	\$ (94.6)	\$ (0.4)
Dividends paid to noncontrolling interests	\$ (5.8)	\$ (1.6)	\$ (4.2)
Proceeds from exercise of stock options and employee stock purchase plan	\$ 25.1	\$ 22.9	\$ 2.2
Payment of taxes related to settlement of equity awards	\$ (30.4)	\$ —	\$ (30.4)
Purchase of redeemable noncontrolling interests	\$ (3.6)	\$ —	\$ (3.6)

Sources and uses of cash related to equity during the six months ended June 30, 2021 and 2020 were as follows:

- During the first six months of 2021, we repurchased 0.4 shares of our common stock on the open market for \$69.9 million. During the first six months of 2020, we did not repurchase any shares of our stock.
- We maintained our quarterly dividend of \$0.39 per share in the second quarter of 2021. We paid cash dividends to Equifax shareholders of \$95.0 million and \$94.6 million, or \$0.78 per share, during the six months ended June 30, 2021 and 2020, respectively.
- We received cash of \$25.1 million and \$22.9 million during the first six months of 2021 and 2020, respectively, from the exercise of stock options and the employee stock purchase plan.

At June 30, 2021, the Company had \$520.2 million remaining for stock repurchases under the existing authorization from the board of directors.

**Contractual Obligations, Commercial Commitments and Other Contingencies**

Our contractual obligations have not changed materially from those reported in our 2020 Form 10-K. For additional information about certain obligations and contingencies, see Note 6 of the Notes to Consolidated Financial Statements in this Form 10-Q.

**Off-Balance Sheet Arrangements**

There have been no material changes with respect to our off-balance sheet arrangements from those presented in our 2020 Form 10-K.

**Benefit Plans**

At December 31, 2020, our U.S. Retirement Income Plan met or exceeded ERISA's minimum funding requirements. In the future, we expect to make minimum funding contributions as required and may make discretionary contributions, depending on certain circumstances, including market conditions and our liquidity needs. We believe additional funding contributions, if any, would not prevent us from continuing to meet our liquidity needs, which are primarily funded from cash flows generated by operating activities, available cash and cash equivalents, our CP program and our Revolver.

For our non-U.S., tax-qualified retirement plans, we fund an amount sufficient to meet minimum funding requirements but no more than allowed as a tax deduction pursuant to applicable tax regulations. For our non-qualified supplementary retirement plans, we fund the benefits as they are paid to retired participants, but accrue the associated expense and liabilities in accordance with U.S. GAAP.

For additional information about our benefit plans, see Note 9 of the Notes to Consolidated Financial Statements in our 2020 Form 10-K.

**Seasonality**

Traditionally we experience seasonality in certain of our revenue streams. Revenue generated by the online consumer information services component of our USIS operating segment is typically the lowest during the first quarter, when consumer lending activity is at a seasonal low. Revenue generated from the Employer Services business unit within the Workforce Solutions operating segment is generally higher in the first quarter due primarily to the provision of Form W-2, 1094, and 1095 preparation services which occur in the first quarter each year. Revenue generated from our financial wealth asset products and data management services in our Financial Marketing Services business are generally higher in the fourth quarter each year. Mortgage related revenue is generally higher in the second and third quarters of the year due to the increase in consumer home purchasing during the summer in the U.S. Due to the COVID-19 pandemic, as described above within "Recent Events and Company Outlook," we are unsure of how future results will compare to historic seasonality trends.

**Foreign Currency**

Argentina experienced multiple periods of increasing inflation rates, devaluation of the peso, and increasing borrowing rates. As such, Argentina was deemed a highly inflationary economy by accounting policymakers. Beginning in the third quarter of 2018, we have accounted for Argentina as highly inflationary which resulted in the recognition of a \$0.1 million foreign currency loss that was recorded in other income (expense), net in our Consolidated Statements of Income during the three and six months ended June 30, 2021.

**RECENT ACCOUNTING PRONOUNCEMENTS**

For information about new accounting pronouncements and the potential impact on our Consolidated Financial Statements, see Note 1 of the Notes to Consolidated Financial Statements in this Form 10-Q and Note 1 of the Notes to Consolidated Financial Statements in our 2020 Form 10-K.

#### **APPLICATION OF CRITICAL ACCOUNTING POLICIES**

The Company's Consolidated Financial Statements are prepared in conformity with U.S. GAAP. This requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities in our Consolidated Financial Statements and the Notes to Consolidated Financial Statements. We believe the most complex and sensitive judgments, because of their significance to the Consolidated Financial Statements, result primarily from the need to make estimates and assumptions about the effects of matters that are inherently uncertain. The "Application of Critical Accounting Policies and Estimates" section in the MD&A, and Note 1 of the Notes to Consolidated Financial Statements, in our 2020 Form 10-K describe the significant accounting estimates and policies used in the preparation of our Consolidated Financial Statements. Although we believe that our estimates, assumptions and judgments are reasonable, they are based upon information available at the time. Actual results may differ significantly from these estimates under different assumptions, judgments or conditions.

#### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

For information regarding our exposure to certain market risks, see "Quantitative and Qualitative Disclosures about Market Risk," in Part II, Item 7A of our 2020 Form 10-K. There were no material changes to our market risk exposure during the three and six months ended June 30, 2021.

#### **ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, an evaluation was carried out by the Company's management, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report. In addition, no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

#### Litigation and Investigations related to the 2017 Cybersecurity Incident

In 2017, we experienced a cybersecurity incident following a criminal attack on our systems that involved the theft of certain personally identifiable information of U.S., Canadian and U.K. consumers. Following the 2017 cybersecurity incident, hundreds of class actions and other lawsuits were filed against us typically alleging harm from the incident and seeking various remedies, including monetary and injunctive relief. We were also subject to investigations and inquiries by federal, state and foreign governmental agencies and officials regarding the 2017 cybersecurity incident and related matters. Most of these lawsuits and government investigations have concluded or been resolved, including pursuant to the settlement agreements described below, while others remain ongoing. The Company's participation in these settlements does not constitute an admission by the Company of any fault or liability, and the Company does not admit fault or liability.

#### *Consumer Settlement.*

On July 19, 2019 and July 22, 2019, we entered into multiple agreements that resolve the U.S. consolidated consumer class action cases, captioned *re: Equifax, Inc. Customer Data Security Breach Litigation, MDL No. 2800* (the "U.S. Consumer MDL Litigation"), and the investigations of the FTC, the CFPB, the Attorneys General of 48 states, the District of Columbia and Puerto Rico and the NYDFS (collectively, the "Consumer Settlement"). Under the terms of the Consumer Settlement, the Company will contribute \$380.5 million to a non-reversionary settlement fund (the "Consumer Restitution Fund") to provide restitution for U.S. consumers identified by the Company whose personal information was compromised as a result of the 2017 cybersecurity incident as well as to pay reasonable attorneys' fees and reasonable costs and expenses for the plaintiffs' counsel in the U.S. Consumer MDL Litigation (not to exceed \$80.5 million), settlement administration costs and notice costs. The Company has agreed to contribute up to an additional \$125.0 million to the Consumer Restitution Fund to cover certain unreimbursed costs and expenditures incurred by affected U.S. consumers in the event the \$380.5 million in the Consumer Restitution Fund is exhausted. The Company also agreed to various business practice commitments related to consumer assistance and its information security program, including conducting third party assessments of its information security program.

On January 13, 2020, the Northern District of Georgia, the U.S. District Court overseeing centralized pre-trial proceedings for the U.S. Consumer MDL Litigation and numerous other federal court actions relating to the 2017 cybersecurity incident (the "MDL Court"), entered an order granting final approval of the settlement in connection with the U.S. Consumer MDL Litigation. The MDL Court entered an amended order granting final approval of the settlement (the "Final Approval Order") on March 17, 2020. Several objectors appealed the Final Approval Order to the U.S. Court of Appeals for the Eleventh Circuit (the "Eleventh Circuit"). On June 3, 2021, the Eleventh Circuit issued an order reversing the MDL Court's grant of incentive awards to class representatives, but affirming all other aspects of the Final Approval Order. Several objectors have filed petitions with the Eleventh Circuit seeking both a rehearing by the three-judge panel and a rehearing by the entire Eleventh Circuit. Until the appeals are finally adjudicated or dismissed, we can provide no assurance that the U.S. Consumer MDL Litigation will be resolved as contemplated by the settlement agreement. If the MDL Court's order approving the settlement is reversed by an appellate court, there is a risk that we would not be able to settle the U.S. Consumer MDL Litigation on acceptable terms or at all, which could have a material adverse effect on our financial condition and results of operations.

#### *Other Matters.*

We face other lawsuits and government investigations related to the 2017 cybersecurity incident that have not yet been concluded or resolved. These ongoing matters may result in judgments, fines or penalties, settlements or other relief. We dispute the allegations in the remaining lawsuits and intend to defend against such claims. Set forth below are descriptions of the main categories of these matters.

*Georgia State Court Consumer Class Actions.* Four putative class actions arising from the 2017 cybersecurity incident were filed against us in Fulton County Superior Court and Fulton County State Court in Georgia based on similar allegations and theories as alleged in the U.S. Consumer MDL Litigation and seek monetary damages, injunctive relief and other related relief on behalf of Georgia citizens. These cases were transferred to a single judge in the Fulton County Business Court and three of the cases were consolidated into a single action. On July 27, 2018, the Fulton County Business Court granted the Company's motion to stay the remaining single case, and on August 17, 2018, the Fulton County Business Court granted the

Company's motion to stay the consolidated case. These cases remain stayed pending final resolution of the U.S. Consumer MDL Litigation.

*Canadian Class Actions.* Five putative Canadian class actions, four of which are on behalf of a national class of approximately 19,000 Canadian consumers, are pending against us in Ontario, British Columbia and Alberta. Each of the proposed Canadian class actions asserts a number of common law and statutory claims seeking monetary damages and other related relief in connection with the 2017 cybersecurity incident. In addition to seeking class certification on behalf of Canadian consumers whose personal information was allegedly impacted by the 2017 cybersecurity incident, in some cases, plaintiffs also seek class certification on behalf of a larger group of Canadian consumers who had contracts for subscription products with Equifax around the time of the incident or earlier and were not impacted by the incident.

On December 13, 2019, the court in Ontario granted certification of a nationwide class that includes all impacted Canadians as well as Canadians who had subscription products with Equifax between March 7, 2017 and July 30, 2017 who were not impacted by the incident. We appealed one of the claims on which a class was certified and on June 9, 2021, our appeal was granted by the Ontario Divisional Court. The plaintiff has since filed a notice of further appeal. All remaining purported class actions are at preliminary stages or stayed.

*Government Investigations.* We have cooperated with federal, state and foreign governmental agencies and officials investigating or otherwise seeking information, testimony and/or documents, regarding the 2017 cybersecurity incident and related matters and most of these investigations have been resolved as discussed in prior filings.

The U.K.'s Financial Conduct Authority ("FCA") opened an enforcement investigation against our U.K. subsidiary, Equifax Limited, in October 2017. The investigation by the FCA has involved a number of information requirements and interviews. We continue to respond to the information requirements and are cooperating with the investigation.

Although we continue to cooperate in the above investigations and inquiries, an adverse outcome to any such investigations and inquiries could subject us to fines or other obligations, which could have a material adverse effect on our financial condition and results of operations.

#### **Other**

Equifax has been named as a defendant in various other legal actions, including administrative claims, regulatory matters, government investigations, class actions and other litigation arising in connection with our business. Some of the legal actions include claims for substantial compensatory or punitive damages or claims for indeterminate amounts of damages. We believe we have defenses to and, where appropriate, will contest many of these matters. Given the number of these matters, some are likely to result in adverse judgments, penalties, injunctions, fines or other relief. We may explore potential settlements before a case is taken through trial because of the uncertainty and risks inherent in the litigation process.

For information regarding our accounting for legal contingencies, see Note 6 of the Notes to Consolidated Financial Statements in this Form 10-Q.

#### **ITEM 1A. RISK FACTORS**

There have been no material changes with respect to the risk factors disclosed in our 2020 Form 10-K.

**ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

The following table contains information with respect to purchases made by or on behalf of Equifax or any "affiliated purchaser" (as defined in Rule 10b-18(a) (3) under the Securities Exchange Act of 1934), of our common stock during our second quarter ended June 30, 2021:

<b>Period</b>	<b>Total Number of Shares Purchased (1)</b>	<b>Average Price Paid Per Share (2)</b>	<b>Total Number of Shares Purchased as Part of Publicly-Announced Plans or Programs</b>	<b>Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs (3)</b>

- (1) The total number of shares purchased for the quarter includes shares surrendered, or deemed surrendered, in satisfaction of the exercise price and/or to satisfy tax withholding obligations in connection with the exercise of employee stock options, totaling 1,055 shares for the month of April 2021, 89,558 shares for the month of May 2021, and 3,503 shares for the month of June 2021.
- (2) Average price paid per share for shares purchased as part of our share repurchase program (includes brokerage commissions).
- (3) At June 30, 2021, the amount authorized for future share repurchases under the share repurchase program was \$520.2 million. The program does not have a stated expiration date.

**Dividend and Share Repurchase Restrictions**

Our Revolver restricts our ability to pay cash dividends on our capital stock or repurchase capital stock if a default or event of default exists or would result if these payments were to occur, according to the terms of the applicable credit agreements.

**AMENDMENT NO. 4  
TO  
EQUIFAX 2005 EXECUTIVE DEFERRED COMPENSATION PLAN  
(As Amended and Restated Effective January 1, 2015)**

THIS AMENDMENT is made as of this 5th day of May, 2021 by Equifax Inc. (the "Company");

WHEREAS, the Company maintains the Equifax 2005 Executive Deferred Compensation Plan, as amended and restated as of January 1, 2015, and as further amended on June 30, 2016, February 16, 2018 and November 4, 2020 (the "Plan");

WHEREAS, the Company maintains a supplemental retirement contributions program (the "SCP") for senior executive officers, which is a component of the Plan; and

WHEREAS, the Company desires to amend the SCP component of the Plan (i) to modify the retirement age and payment eligibility date under the SCP to align the SCP with certain other Company benefits plans, including the Plan and the Company's annual incentive plan, and (ii) to modify the earnings definition in the SCP to align the SCP with the Company's annual incentive plan and 401(k) plan.

NOW, THEREFORE, the Plan is hereby amended, effective as of May 5, 2021, as follows:

1.

Appendix Section A.1 is deleted in its entirety and the following substituted therefor:

A.1. Supplemental Retirement Contributions. Unless otherwise determined by the Employer (for any Plan Year or from time to time), the annual Supplemental Retirement Contribution for a designated Eligible Executive will be equal to ten percent (10%) of the sum of (i) the Base Salary paid to the Eligible Executive during the Plan Year and (ii) the Bonus earned by the Eligible Executive for the Plan Year. If an Eligible Executive becomes or ceases to be eligible to receive Supplemental Retirement Contributions during a Plan Year, the Supplemental Retirement Contributions will be based only on the Base Salary paid and Bonus earned while the Eligible Executive was eligible to receive Supplemental Retirement Contributions. The Employer shall have full discretion in determining the amount of Base Salary paid and Bonus earned for any period. The Supplemental Retirement Contribution for a Plan Year will be credited to the Participant's Supplemental Retirement Contribution Account at such time after the end of the Plan Year as may be determined by the Employer. To be eligible to receive the Supplemental Retirement Contribution for a Plan Year, the Participant must be actively employed on the funding date of the Supplemental Retirement Contribution for such Plan Year, provided that if a Participant terminates employment prior to the funding date for such Plan Year as a result of death, Disability or after qualifying for Retirement, the Participant will receive a Supplemental Retirement Contribution for such Plan Year based upon the Participant's Base Salary paid and any Bonus earned prior to the date of the Participant's Termination of Employment. Earnings on the Participant's Supplemental Retirement Contribution Account shall be determined in accordance with Section 3.2.

2.

Appendix Section A.3(ii) is deleted in its entirety and the following substituted therefor:

(ii) In lieu of Section 4.1, the following provision shall apply to the Participant's Supplemental Retirement Contribution Account: Upon a Participant's Termination of Employment (A) after the Participant has attained age 55 or, (B) for Participants who commenced employment and first became eligible to participate in the Supplemental Retirement Contribution portion of the Plan on or after May 5, 2021, after the Participant has attained age 60 and has completed at least five (5) Years of Vesting Service, vested amounts credited to the Participant's Supplemental Retirement Contribution Account shall be paid in a single lump sum unless the Participant has elected within 30 days of becoming eligible to participate in the Supplemental Retirement Contribution portion of the Plan (or such other time period as provided by the Administrator in accordance with Section 409A) to have such Supplemental Retirement Contribution Account paid in substantially level annual installments over a specified period of not more than fifteen (15) years. Payments shall begin on the Settlement Date following the Participant's Termination of Employment. Any reference in the Plan to making payments or paying Retirement benefits in accordance with Section 4.1 shall mean payment in accordance with this Section A.3(ii) for the Supplemental Retirement Contribution Account.

3.

Appendix Section A.3(iii) is deleted in its entirety and the following substituted therefor:

(iii) In lieu of Section 4.2, the following Termination Benefit provision shall apply: If the Participant's Termination of Employment for any reason other than death or Disability occurs prior to (A) the Participant attaining age 55 or, (B) for Participants who commenced employment and first became eligible to participate in the Supplemental Retirement Contribution portion of the Plan on or after May 5, 2021, the Participant attaining age 60 with the completion of at least five (5) Years of Vesting Service, the Participant's vested Supplemental Retirement Contribution Account shall remain credited to the Participant in the Plan (with notional earnings as provided in Article 3 through the Valuation Date) and shall be payable in a lump sum on the Settlement Date following (1) the date the Participant attains age 55 or, (2) for Participants who commenced employment and first became eligible to participate in the Supplemental Retirement Contribution portion of the Plan on or after May 5, 2021, the Participant's Termination of Employment.

4.

This Amendment No. 4 shall be effective as of May 5, 2021. Except as hereby modified, the Plan shall remain in full force and effect.

IN WITNESS WHEREOF, the Company has executed this Amendment No. 4 as of the date first written above.
